JetPeel
INVISIBLE TREATMENT. VISIBLE RESULTS.

JET YOUR WAY TO HEALTHY SKIN

DETOXIFY. EXFOLIATE. INFUSE.

A NON-INVASIVE,
NEEDLE-FREE
SOLUTION FOR
SERIOUS SKINCARE.

THE JET ROUTINE: THREE STEPS TO HEALTHY, LUMINOUS SKIN

LYMPHATIC DRAINAGE

A pressurized massage using specially-formulated detoxifying water, deep cleans and purifies, stimulating blood and lymphatic circulation to eliminate toxins.

EXFOLIATION

Detoxifying water, combined with active exfoliating ingredients, gently removes natural skin debris and dead skin cells. It oxygenates the tissue and stimulates microcirculation, preparing skin to receive nutrients during the infusion step.

INFUSION

A pressurized force of customized, bioactive skin nutrients are infused deep into the dermis via a patented handpiece. All-natural, nutrient-rich formulas include vitamins and minerals, such as Hyaluronic Acid, Bio-Peptides, Vitamin A+E, Vitamin B5, and Vitamin C, which are essential to the elasticity, radiance, and health of the skin.

ONE SKINCARE TECHNOLOGY SUITED FOR ALL SKIN TYPES

JetPeel treatments are ideal for all skin types, improve overall skin health, and are customized to effectively address:

- Fine Lines & Wrinkles
- Skin Rejuvenation
- Hyperpigmentation
- Enlarged Pores
- Dark Circles & Puffiness
- Active Acne & Acne Scars
- Rosacea
- Irritated & Inflamed Skin
- Scar Tissue & Stretch Marks
- Thinning Hair & Hair Loss
- Excessive Sweating

JET YOUR WAY TO HEALTHY SKIN

JetPeel treatments combine the benefits of dermabrasion, chemical peel, extractions, and microneedling to detox, exfoliate and infuse bio-active nutrients deep into the skin.

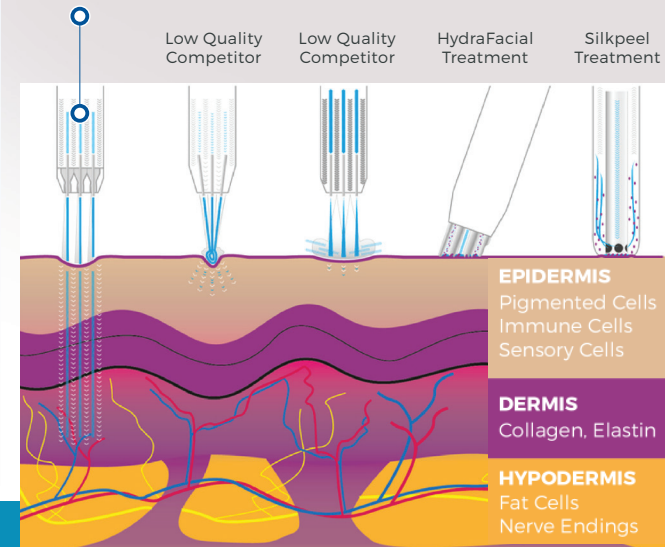

Treatments range between 15-45 minutes. With no irritation or redness, you will be able to return to your daily activities immediately. Visible results can be seen after one treatment, with continued improvement over several sessions.

JetPeel
TRIPLE
NOZZLE

JetPeel infuses skin deep down without causing irritation.

HOW IT WORKS

JetPeel is the newest innovation in non-invasive skincare, offering a needle-free, pain-free solution for serious skincare. Patented technology using pressurized oxygen, accelerates a jet stream of liquid micro-droplets, creating tiny microchannels in the skin to deliver nutrients down to the dermal layer. Each JetPeel treatment includes lymphatic drainage, exfoliation, and a customized infusion of natural, bioactive skin nutrients to address specific skin conditions, providing visible results with no downtime or skin irritation.
