## DOES COOLSCULPTING REALLY WORK? COOLSCULPTING BEFORE & AFTER WITH REVIEWS

Home » Blog » Does CoolSculpting Really Work? CoolSculpting Before & After with Reviews

Posted on: Jul 15 2023 By: Always Beautiful Medical Spa Leave a response

### CoolSculpting Elite Before And After With Patient Testimonials

Simply freezing away your fat during a 35-minute treatment may sound too good to be true. For decades, liposuction provided the only solution for reducing fat that resists diet and exercise.

Then CoolSculpting hit the market, and with it came claims that the non-invasive treatment provided long-term fat reduction without surgery or downtime. After that came the questions. Does CoolSculpting work? Is CoolSculpting right for me?

One of the best ways to figure out if fat-freezing is the route you want to go is by hearing the experiences that others before you went through. That's why, at Always Beautiful Medical Aesthetics & Cosmetics, we prioritize asking our patients to share their thoughts after CoolSculpting. And what we hear shows exactly why this treatment is so popular.

### Why You Should Choose CoolSculpting Elite Over CoolSculpting

After the legacy version of CoolSculpting had its moment, **CoolSculpting Elite** took charge. CoolSculpting Elite reduces twice the fat in half the time that its predecessor takes. Each CoolSculpting Elite patient achieves noticeable, dramatic fat reduction thanks to two C-shaped applicators that hug curves effectively.

The redesigned fat-freezing machines now come with seven new dual applicators. Each applicator differs in shape and size. **This new technology distinguishes CoolSculpting Elite as the only FDA-cleared treatment to reduce fat non-invasively in nine different treatment areas, including:**

- **Stomach**
- **Love handles**
- **Thighs**
- **Upper arms**
- **Armpit area or bra bulges**
- **Back**
- **Below the buttocks or banana roll**
- **Chin**
- **Neck fat and double chin**

### CoolSculpting Elite Reviews: Real Patient Testimonials

Finding the best provider to conduct your fat-freezing treatment is essential to enjoying your experience and loving your results. These reviews are from some of our recent **CoolSculpting treatments in the Denver area.**

*"My first appointment and I was very satisfied Veronica & Jodi in the cool sculpting clinic are amazing they are fun, friendly, and caring. Definitely recommend!"* – Brenda Enriquez

*"Veronica & Jodi in the cool sculpting clinic are absolutely amazing to work with! My experience was definitely five star because of their professionalism & care! They made it fun! Thank you!"* – Katherine Held

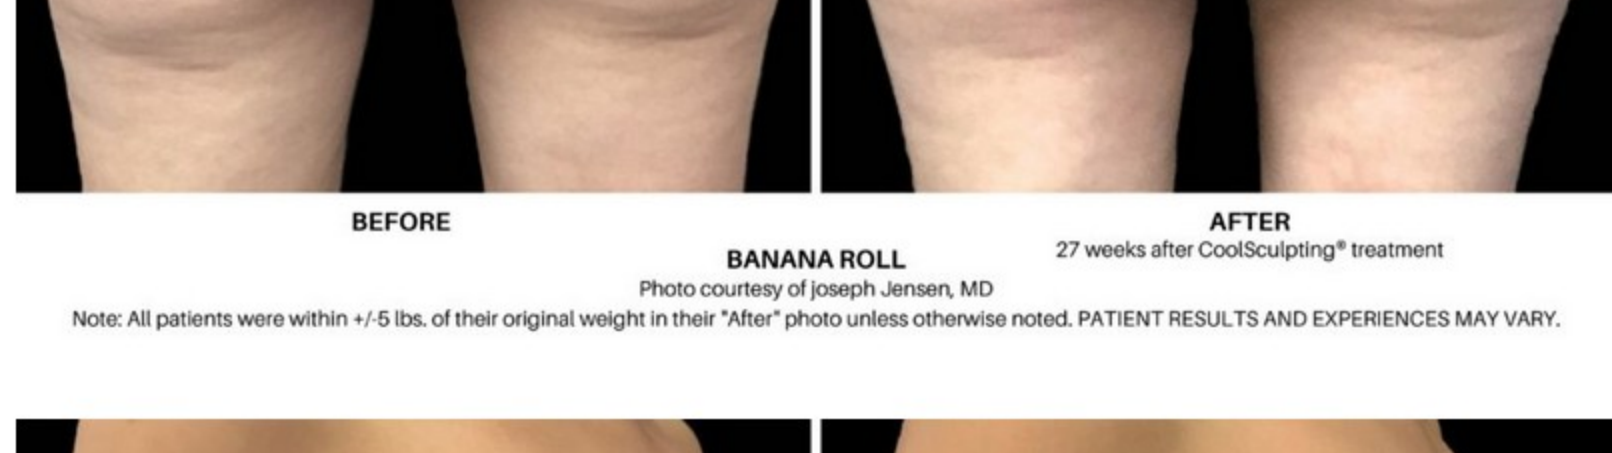

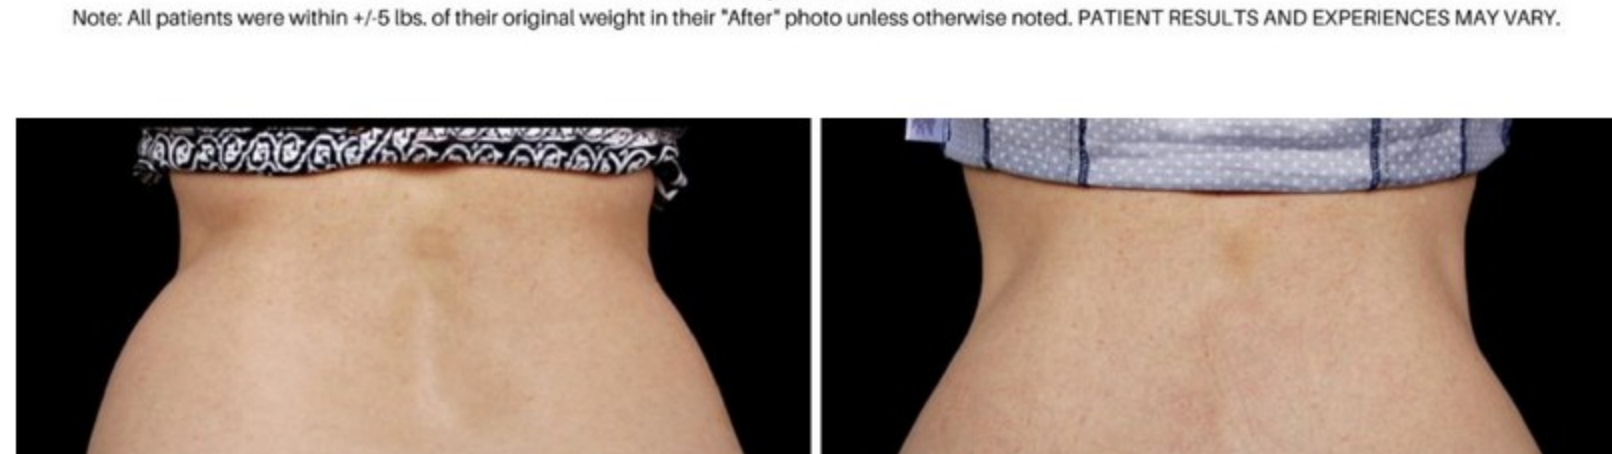

*"The girls are so sweet and Always Beautiful Medspa & CoolClinic is amazing!!! He made it so quick and painless! I'm so happy with my results."* – Connie Norton

*"Veronica is most knowledgeable in Cool Sculpting and will give you an honest review and most amazing body makeover!!! The spa stands true to its name: Always Beautiful!!!! Ask for Veronica!!!!"* – AJ Kikumoto

*"Not only does the staff do a fantastic job at making you look like a better version of yourself, but they are also great people! I have had multiple services, and everyone is top-notch. Very knowledgeable and no cutting corners, while still being competitively priced. Love, love, love!!!"* – Hayley Sutterly

### CoolSculpting Elite Before And After

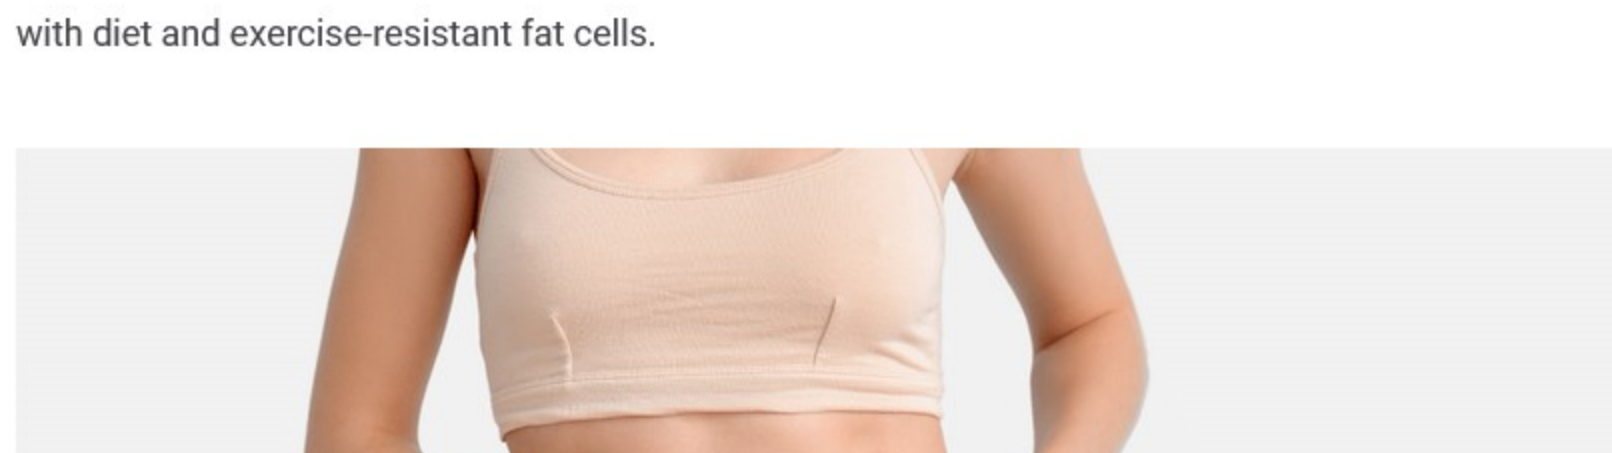

CoolSculpting before and after results demonstrate the effectiveness of fat freezing in the reduction of fat cells. \* They also indicate why millions of men and women select body contour treatments for a sleek, firm physique.

Two important factors play into your fat-freezing results: Procedure candidacy and the expertise of the practitioner.

### What Makes A Good CoolSculpting Candidate?

CoolSculpting Elite is not for everyone. You would need to be an ideal CoolSculpting candidate to know whether you can expect similar results. That means you are a healthy, active adult struggling with diet and exercise-resistant fat cells.

One important note is that CoolSculpting does not address obesity, weight loss, or extra skin. Rather, it's designed to contour a firm physique. You should have at least three inches of pinchable fat – enough excess fat to hold onto but still within about 10 pounds of your goal weight.

The most efficient way to determine whether the treatment is right for you is to schedule a complimentary consultation with a skilled provider. That allows you to ask all of your body contouring questions, address any concerns, and understand how many treatments you would need to reach your goals. Some patients schedule multiple sessions to see optimal results.

### Finding The Best CoolSculpting Provider

Like all body contouring treatments, using **fat-freezing technology** is technique-sensitive. CoolSculpting requires skilled technicians and FDA-cleared equipment. The person providing the treatment affects the patient's experience and results. When selecting a provider, make sure the facility you choose is reputable. This is a time to put yourself first and ensure you are comfortable and confident moving forward with treatment.

Inquire about the expertise of the provider and the equipment. It's essential that the med spa or clinic put the comfort and safety of the patient first. Choose the provider and clinic that suits your needs best for a pleasant experience and visible results.

### CoolSculpting Elite In Denver, Co

After reading CoolSculpting reviews from actual patients and seeing stellar results in before and after pictures, it is easy to understand why it's such a popular option and why Always Beautiful is the premier provider of CoolSculpting in the Denver area. With our team, knowledgeable, caring technicians prioritize the well-being and satisfaction of each patient.

**If you want to be one of the happy patients raving about body contouring results in your own CoolSculpting review, take the first step by scheduling a consultation with our Aurora clinic.**

\*Keep in mind that results vary depending on the number of sessions, treatment intensity, and how your body responds to freezing fat cells.

## COOLSCULPTING™ CHIN: GET RID OF YOUR DOUBLE CHIN WITH COOLMINI™

Home » Blog » CoolSculpting™ Chin: Get Rid of Your Double Chin With CoolMini™

Posted on: Aug 29 2023 By: Always Beautiful Medical Spa Leave a response

### CoolSculpting™ Chin: Get Rid Of Your Double Chin With CoolMini™

Most of us deal with a double chin at some point in our lives. You might have always had one, or more recently found that there's extra volume under the chin. But that doesn't mean you need to keep that unwanted fat.

You've likely heard of CoolSculpting, the revolutionary fat-freezing treatment that eliminates fat bulges without surgery or downtime. One CoolSculpting machine comes with different applicators that target specific areas of your body. That means you have the ability to reduce excess fat in one spot. Since you can't be sure that specific exercises will work on the spot you want, targeting locations on your own can be pretty challenging, especially underneath the chin.

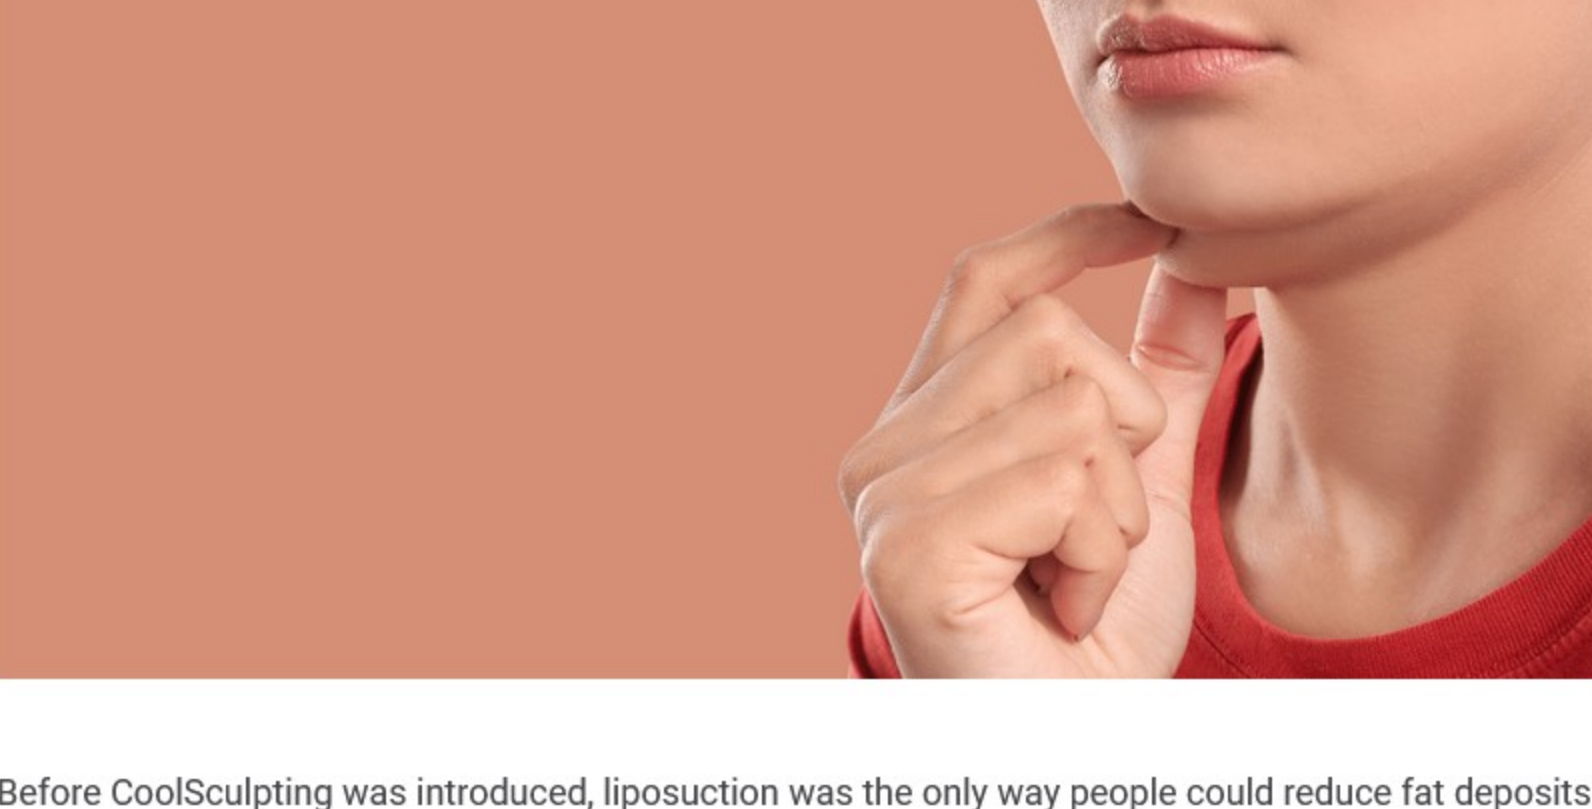

When CoolSculpting first hit the market in 2010, its FDA approval was for fat removal on the abdomen and flanks or love handles. However, with its continuing rise in popularity, additional applicators capable of targeting more CoolSculpting treatment areas became available.

One of these applicators, CoolMini, safely reaches the neck and jawline area. This small, handheld device was created to target submental fullness, commonly known as neck fat, jowls, or a double chin. Using cryolipolysis technology, CoolMini freezes fat pockets for the body to process and eliminate.

### Submental Fullness: Reasons For A Double Chin

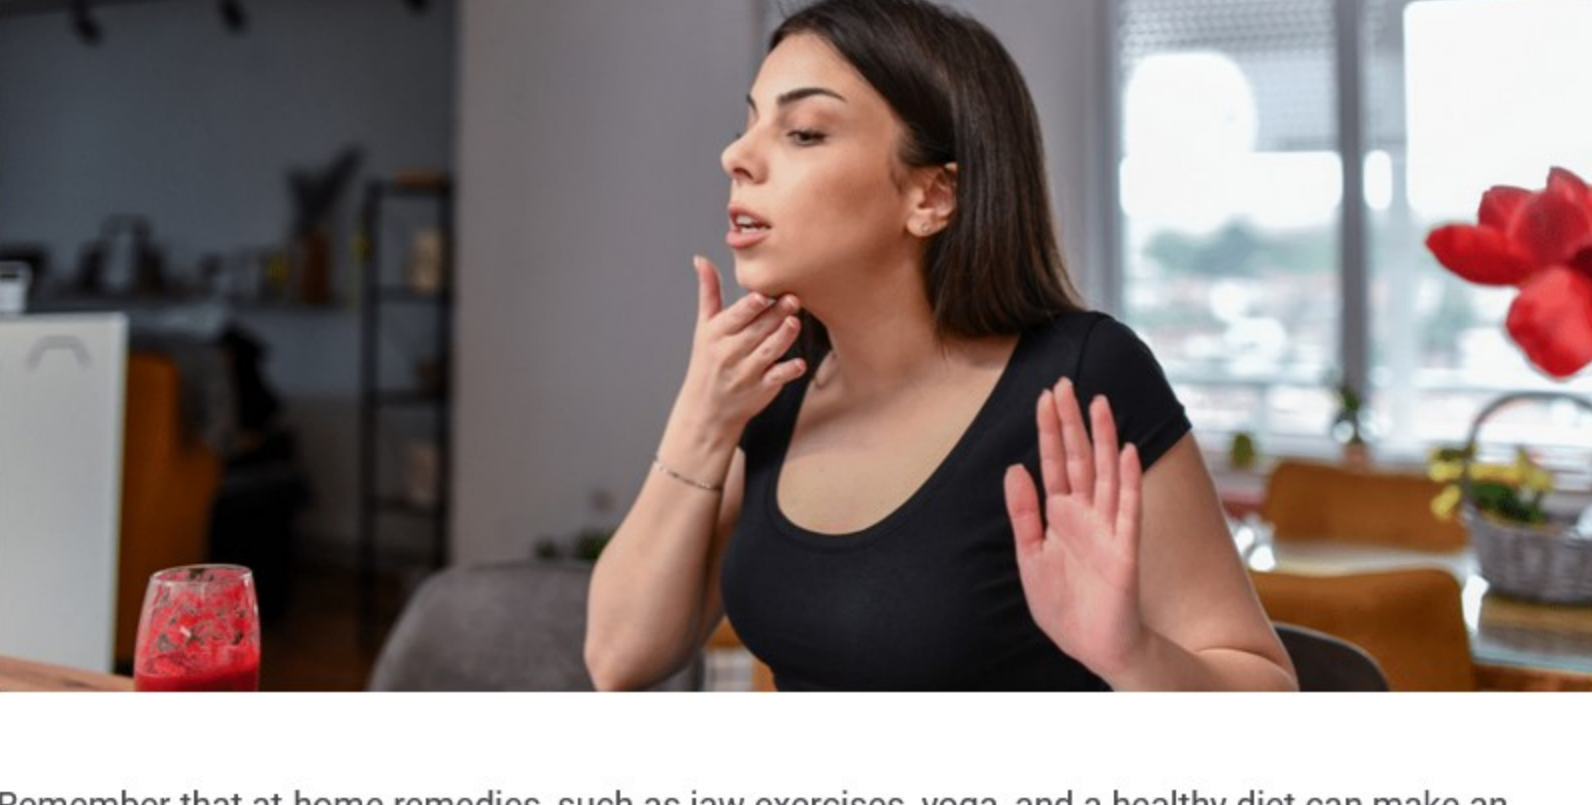

Submental fullness is unwanted fat just underneath the chin. Although it can be quite a diet- and exercise-resistant spot, a double chin is not always caused by poor diet and lifestyle choices. In fact, this area is notorious for collecting stubborn fat due to gender, hormones, and genetics. You do not need to be overweight to have a double chin.

Before CoolSculpting was introduced, liposuction was the only way people could reduce fat deposits in the submental area. Thankfully, now CoolSculpting provides a non-invasive way to eliminate double chins and neck fat.

### CAN YOU REMOVE A DOUBLE CHIN AT HOME?

The idea that you can "spot reduce" fat is a myth. While you can do crunches and strengthen abdominal muscles, it does not mean that you burn off stubborn belly fat. The same is true for the double chin and neck area.

Remember that at-home remedies, such as jaw exercises, yoga, and a healthy diet can make an impact, but it takes a while. You can attempt to do exercises that target submental fullness, but there is no guarantee you will burn off that specific fat.

### CoolMini Sculpting: How It Works

CoolSculpting is a revolutionary treatment that reduces fat deposits without surgery or downtime. Since CoolMini is one of the applicators for CoolSculpting, its technology works the same way, only it targets explicitly submental fullness.

This non-invasive procedure uses an applicator to expose unwanted fat cells to a controlled cooling that freezes them to death. The applicator will sit under the chin and around the jaw to emit controlled cooling in the proper location. Once the fat cells are frozen, their cell membrane crystallizes and ruptures, triggering cell death.

Weeks after treatment, the body naturally gathers the dead cells and expels them from the body as a form of waste through the lymphatic system. Once removed, the fat cells never return, leading to long-term fat reduction.

### HOW LONG DOES COOLMINI LAST?

**The Procedure:** Each CoolMini session generally lasts up to an hour.  
**The Results:** CoolMini results are permanent.\*

\*It's important to remember that not every fat cell in the treatment area will die, although the ones that do, are gone forever. A CoolMini session reduces up to 25% of the unwanted fat, so even though a portion will go, you can still gain weight in the remaining fat cells. That's why you should focus on maintaining a healthy lifestyle after treatment, so you can maximize your CoolMini results.

### CoolMini Double Chin Removal: The Non-Surgical Alternative

Before CoolSculpting, people struggling with double chins and neck fat had few options, mostly liposuction. While effective, liposuction has several drawbacks like painful surgery, cannulas, general anesthesia, and a long recovery process. With the introduction of the CoolMini, CoolSculpting neck fat can reduce submental fullness without injections, stitches, or painful surgery.

CoolSculpting neck fat is clinically proven as a safe and effective way to eliminate submental fullness. **According to scientific findings:**

- CoolSculpting leads to an average of 20% fat reduction after a single treatment
- 83% of patients were satisfied with their results after CoolSculpting double chin
- 7 out of 10 patients found the procedure comfortable
- 8 out of 10 patients would recommend CoolSculpting neck fat to a friend
- Results are seen in one to two treatments

Unlike attempting to find the right double chin removal technique at home where you have to wait and see if the results show, CoolSculpting with CoolMini offers results faster. Plus, you continue to see slimming effects as the body processes frozen fat cells.

### CoolSculpting Chin Results: CoolMini Before And After

CoolSculpting chin before and after images demonstrate how CoolMini helps eliminate fat in the submental area.\* The number of sessions you need will depend on how much fat removal is necessary to reach your goals. Most patients usually find that one or two CoolMini treatments will get the job done. Results are typically seen within one to three months of your initial session (if you're getting more than one). It can take a few more months for the full effects of CoolMini to become apparent.

As with any body contouring treatment, results may vary per individual.\* The best way to receive a dramatic fat reduction is by selecting a reputable, professional CoolSculpting provider. CoolSculpting is technique-sensitive, meaning the more skill the provider has, the more dramatic your fat reduction.

When you're deciding on a medical spa treatment, it can feel overwhelming knowing there are so many options. That's why before and after images along with testimonials can make all the difference in finding the best double chin removal for your body. It's important to find a provider that you trust, knowing the team is professional and has your best interests in mind.

### Kybella Vs. CoolMini

One of the solutions patients choose for double chins is Kybella injections. If you're looking to treat submental fullness, you may be considering both options – but which is best? Kybella injections contain synthetic deoxycholic acid, which helps the body break down and absorb dietary fat. Deoxycholic acid naturally occurs in the body, so these injections offer an extra boost in fat removal.

**Patients choose CoolMini over Kybella because CoolSculpting involves:**

- No needles, anesthesia, or stitches
- No bruising or swelling
- Less cost but more treatment area coverage
- Fewer sessions are necessary to see results
- A more comfortable process

CoolSculpting with CoolMini sessions take about 45 minutes versus Kybella's 15-30 minute timeframe. However, CoolMini leaves no downtime for recovery; Kybella will usually take a few days to heal.

Results from both treatments are considered permanent. The fat cells do not come back, although you should eat well and stay active to see the most success.

### CoolMini Near Me

If you are tired of living with embarrassing submental fullness, CoolSculpting in Denver may be the perfect solution. The CoolMini applicator is a popular choice at Always Beautiful. We are a premier provider of this popular fat-freezing treatment in Aurora and Denver, CO. Don't hesitate to reach out with any questions or concerns – our team of specialists is always ready to help. Call us at 720-280-7016 to schedule your complimentary consultation and learn more about CoolSculpting.
