

## Susan's Bio

Susan has worked in the medical industry for over 20 years. She developed her passion for aesthetics after assisting in cosmetic surgeries at the beginning of her career as a medical/surgical assistant. Over the years she has continued her education and holds many advanced certifications including; micro-needling, dermaplaning, chemical exfoliation, neurotoxins, laser and is a licensed phlebotomist.

Susan takes pride in her work and is passionate about making her clients feel the best version of themselves through noticeable and natural results.

In her free time she loves to travel, mountain bike and hike with her boys, the four-legged one too. Always in the kitchen whipping up something tasty while singing and dancing, music optional.
