CoolSculpting Arms | Reducing Jiggly Upper Arm Fat

📅 July 15, 2022

CoolSculpting arms is an incredible solution for reducing pesky upper arm fat. Treatments are entirely non-surgical, virtually painless, and require little downtime. In 2017, the makers of CoolSculpting introduced a new line of applicators, including the CoolPetite applicator. This handheld device treats small, hard-to-reach areas, including the upper arms.

Read on to learn more about freezing fat in the upper arms and how CoolSculpting treatments achieves tank top ready arms.

[Related Article: What is CoolSculpting?>>](#)

What Causes Stubborn Upper Arm Fat?

The upper arms are a common trouble zone for millions of people. Genetics, age, and hormones influence the gathering of fat deposits in this specific area. Due to the biology of the arm fat cells, the bulges of fat are challenging to lose on your own. While diet and exercise are excellent ways to reduce fat on the body, they may not always be enough to shed the persistent upper arm fat.

People struggling with embarrassing "chicken wings" or "bingo wings" can rest easy now, knowing there is a perfect non-surgical solution. CoolSculpting arms uses advanced cooling to target the fat cells in the upper arm, eliminating them for good.

CoolSculpting Arms Using the CoolPetite

The CoolPetite CoolSculpting applicator is part of the CoolAdvantage collection. The new applicators feature many notable upgrades to their design allowing them to treat more areas, minimize treatment discomfort, and reduce treatment times.

Jean Carruthers, a principal investigator of CoolAdvantage's Petite applicator states that, "The upper arm, with its delicate structures, is one of the most challenging areas for fat reduction." Involved in the research, Carruthers says he can personally attest to the fact that the upper arms responded beautifully and my study patients are delighted by their results.*

CoolSculpting Arms Before and After*

The CoolSculpting arms before and after pics show genuine results from actual patients. Each person achieves a noticeable reduction in arm fat. Results may vary per person.*

It is important to know that CoolSculpting is a skill-dependent treatment. Not every provider is capable of ensuring slim, contoured upper arms. Therefore, it is crucial to select a licensed and skilled provider for CoolSculpting arms treatments like the professionals at the Colorado Center of Aesthetics and Rejuvenation. Our providers are extensively trained and knowledgeable, helping each patient achieve optimal fat reduction.

[Learn about the factors that affect CoolSculpting costs>>](#)

Is CoolSculpting Arms Right For Me?

CoolSculpting sessions are not a viable solution for everyone. The perfect candidate is a healthy, active adult struggling with fat that primarily resists diet and exercise efforts. If you question your candidacy, schedule a free consultation with COCAR. During this visit, one of our expert technicians evaluates your physique to determine if this fat-freezing treatment suits your needs and concerns. If CoolSculpting arms is the right treatment for you, we design a plan that achieves impressive fat reduction at a price you can afford.

CoolSculpting Arms Near Me

COCAR is the premier CoolSculpting arms provider in Westminster, CO. Call us at [720-326-6028](tel:720-326-6028) to schedule your appointment today or reach out to us online to learn more about the powers of body contouring with CoolSculpting.

CoolSculpting Thighs | Contour Slim Thighs Without Surgery

July 28, 2022

CoolSculpting thighs treatments reduce fat from one of the most troublesome areas on the body. Best of all, there is no surgery, or a complicated recovery involved. Read on to learn more about the innovative CoolSculpting and how it contours slim, attractive legs in as little as 35 minutes.

The Truth about Thigh Fat

For women, the thighs are a common trouble zone. Both the inner and outer thighs store resistant fat. This means the fat gathering here is hard to eliminate with manual efforts like dieting and exercising.

Hormones directly influence thigh fat. Female bodies tend to store more fat in this area to act as an energy reserve for pregnancy and breastfeeding. Unfortunately, due to its biological makeup, thigh fat is extremely difficult to reduce on your own. And since "spot reducing" fat is a myth, no diet or exercise can specifically target and burn off fat in the legs. Thankfully, CoolSculpting thigh treatments introduce a non-invasive way to eliminate fat cells for good.

[Learn more about CoolSculpting treatments>>](#)

CoolSculpting Thighs Treatment

CoolSculpting thighs is one of the most popular treatment areas. With cooling sessions, women can contour their outer thighs and reduce "saddlebags" with the CoolSmooth applicator. This handheld device reduces external thigh fat with ease. In addition, it features a non-vacuum-based cooling, allowing it to treat hard, non-pinchable fat like that of the outer thighs. Clinical research shows that the CoolSmooth applicator results in "visible fat reduction after just one treatment."

Another innovative addition to the CoolSculpting applicator line is the CoolFit. This applicator perfectly treats hard-to-reach areas like the inner thighs. It has a vacuum cup and large cooling plates that contour inner portion of the thigh.

Clinical studies evaluating the efficacy of CoolSculpting on inner thigh fat reveal "84% of patients noticed visible fat reduction after just one treatment, and 93% of patients were satisfied with their results." Furthermore, "90% of patients would repeat the procedure."

Is a CoolSculpting Thighs Treatment Right for Me?

CoolSculpting thigh treatments are not right for every patient. The perfect candidate for fat freezing is a healthy adult struggling with a fat buildup in the thighs, inner or outer. The best way to determine if CoolSculpting is right for your body and aesthetic concerns is to schedule a consultation with a professional provider. The staff at The Colorado Center of Aesthetics and Rejuvenation helps each person understand the fat-freezing treatment and if they are a viable patient. Our technicians create a treatment plan addressing your aesthetic concerns at the most affordable price in the Westminister area.

CoolSculpting Thighs Near Me

Stop struggling with thigh fat that just will not budge. CoolSculpting thighs can help. Call The Colorado Center of Aesthetics and Rejuvenation today to schedule an appointment. We are the primary provider of safe, reliable body contouring in Westminister, CO. Call us at [720-326-6028](tel:720-326-6028) or reach out to us online.

CoolSculpting for Men | Tackle Stubborn Bulges Without Surgery

August 5, 2022

CoolSculpting for Men is becoming more popular worldwide, which is no surprise. CoolSculpting is the #1 non-invasive body contouring treatment using advanced cooling technology. More than 5 million CoolSculpting treatment sessions are being performed daily. Also known as fat freezing, CoolSculpting is ideal for tackling stubborn bulges that cling to the body, despite diet and exercise efforts.

Read on to [learn about CoolSculpting](#) and why more men are turning to fat freezing to sculpt their desired physique.

What is CoolSculpting?

CoolSculpting is a revolutionary treatment that uses the science of Cryolipolysis to target and freeze away fat cells. During treatments, a specialist places a CoolSculpting applicator over the treatment area. This proprietary applicator exposes the skin to calibrated, controlled cooling. Fat cells, once frozen, are essentially dead. The body will process out dead fat cells naturally as waste. Once gone, the fat cells can't return or regrow. CoolSculpting is proven safe and effective for long-term fat reduction in almost any area from head to toe.

[See CoolSculpting before and after images>>](#)

Why More Men Are Choosing Fat Freezing

While it is true that women dominate the cosmetic industry, the truth is that many men can benefit from cosmetic procedures. Men often struggle with body image and cosmetic insecurities like women. CoolSculpting allows men the opportunity to shape, tone, and slim their bodies in ways that may not be possible with their efforts. Luckily, advancements in technology and body contouring innovations have brought about non-invasive treatments. Fat freezing is an excellent solution to stubborn fat that requires no painful surgery or stitches- for both men and women.

CoolSculpting for Men | Popular Target Areas

CoolSculpting for men provides customized treatments for areas where men specifically experience stubborn fat and bulges. Women that opt for CoolSculpting typically target areas such as the lower stomach, love handles, and thighs. This fat reduction treatment is often used for men to target fat in the abdomen, love handles, and chest. In addition, the notorious man boobs, or moobs, is a common problem area for many male patients.

[Learn about CoolSculpting cost>>](#)

Fat Freezing for Man Boobs

Getting the coveted washboard abs is not so easy for men. Many men often struggle with moobs. This is due to the stubborn and clingy nature of fat accumulation in this area. Fat in moobs is resistant to most diet and exercise efforts, no matter the consistency or valiant effort. CoolSculpting for men is a perfect treatment to target this uncomfortable issue. CoolSculpting involves no surgery, pain, or long recovery periods. Men that choose CoolSculpting can enjoy comfortable, quick sessions and return to their daily activities immediately. Best of all, CoolSculpting for men results in long-lasting and natural-looking results.

CoolSculpting for Men Near Me

Learn more about CoolSculpting for men by contacting the Colorado Center for Aesthetics and Rejuvenation. COCAR is the leading provider of CoolSculpting for men in Westminster, CO. We are dedicated to helping men sculpt the body of their dreams with non-invasive, effective treatments. Schedule a complimentary consultation with us to get started. Call us today at [720-326-6028](tel:720-326-6028).

CoolSculpting Results | Ensure the Best Fat Reduction Possible

August 20, 2022

CoolSculpting results show how well fat freezing works. Whether through CoolSculpting before and after photos or real patient reviews, resources attest to the effectiveness of the treatment. Additionally, CoolSculpting has been proven to provide long-lasting results in clinical studies published in scientific journals. However, there are many crucial factors to consider ensuring the best possible CoolSculpting results. Read on to learn more about fat freezing and how you can be sure to get the most out of CoolSculpting treatments.

Benefits of CoolSculpting | Non-invasive Fat Reduction

- The #1 non-invasive fat reducing treatment
- Proven as safe and effective
- Target stubborn bulges resistant to diet and exercise
- Ideal alternative to Liposuction
- Virtually painless
- Little to no downtime required
- Natural-looking results
- Long term fat reduction
- Sculpt, slim, and tone attractive curves

CoolSculpting Reviews | Real Patient Testimonials

CoolSculpting reviews and patient testimonials from actual patients are a great resource to use when choosing a CoolSculpting provider. Reviews can be found on medspa websites, google, social media, and more. It may be beneficial to read reviews and testimonials from various sources.

CoolSculpting in Clinical Studies

Clinical studies have been done on CoolSculpting. These studies report unbiased, scientific results. One of these studies, "Cryolipolysis for noninvasive body contouring: clinical efficacy and patient satisfaction," found that "Cryolipolysis was shown to reduce subcutaneous fat at the treatment site by up to 25% after one treatment." Later, a study called "Longitudinal evaluation of Cryolipolysis efficacy" was published in the Journal of Cosmetic Dermatology. This study demonstrated that CoolSculpting results last. CoolSculpting patients were evaluated 9 years after initial treatment, and it was found that "local reductions in fat [after a single CoolSculpting cycle] have significant longevity in these subjects and suggest that results from Cryolipolysis may be very long-lasting."

How to Ensure the Best Possible CoolSculpting Results

To get the best possible CoolSculpting results, choosing the best CoolSculpting provider in your area is important. CoolSculpting is a technique-sensitive procedure. This means that the skill and expertise of the provider are crucial to getting optimal results. The person performing your fat-freezing treatments directly affects your treatment experience and long-term results. Though it can be tempting to shop for CoolSculpting by price alone, cost should not be the priority when choosing a provider. To ensure you get the best CoolSculpting results, choose the best provider.
