

We need help building a page on our shop page that will launch Monday 09/19/22 at 12:01 AM and disappear Sunday 09/25/22 at 11:59 PM.

Needed for review/edit latest by Friday 09/14/22

This would be the first page of the shop when people click on it.

I would like the address to be shop.cypressdermatology.com/openhouse

Need a reminder at the top to say Note: All open house purchases are final. No refunds nor exchanges permitted.

I would like some kind of special wording on the Cypress Derm webpage above the Shop hyperlink:
Shop our Fall Virtual Cosmetic Open House Now!
in a different Fall color (fall mauve color?), or something like that.

We will not be adjusting any of the existing products or services currently available in the shop, but will just creating the new first page. I do however, want to add a coupon people can enter at check-out that would give 20% off all product purchases, and want to make sure that is stated first thing on the page. All photos we use for the new Open house items will be the same ones we already have for similar or same items, but I would like for you to please add OPEN HOUSE in large magenta or whatever color letters diagonally across the face of the photo. Please include a photo for each section. (Same ones in shop for similar items are fine)

Each item should be listed separately in the order I have below, underneath with the price and drop-down menu so they can select the number of units and add to cart.

..

Here are the items I need on the page:

GET READY FOR CYPRESS DERM FALL VIRTUAL OPEN HOUSE, IT STARTS NOW! 25% off most items!

All Products will be Shipped to you or picked up in the office-a special gift bag will be included as well as a special gift with purchase for in-office pick-ups! Gift cards and purchased items can be used whenever you or your loved one wishes and never expire! We are happy to email your gift card for you to print or pick up in the office for maximum ease per your request.

Three Body Sculpting Technologies at Cypress Dermatology: EmSculpt, EmTone, and Thermi! 50% off price this week only!!

EmSculpt

The latest technology in noninvasive muscle conditioning/defining. EmSculpt is an FDA-approved, non-invasive, electromagnetic device is clinically proven to eliminate fat cells and tighten muscles in your abs and butt. High Frequency Electromagnetic Energy works to cause painless stimulation of the muscles of a number of potential treatment areas: abdomen, thighs, arms, back, and buttocks, to cause more than 20,000 contractions in a 30 minute treatment session, with 4 sessions over

two weeks. This leads to increased muscle definition, function, and strength without exercise or post work-out soreness. Also helps to reduce subcutaneous fat in the treatment area. Results are most visible beginning three to 6 months after treatment, and last at least 9-12 months, or even longer. Amazing as an add-on to CoolSculpting!!
50% off price for Open House only!

Kybella 20% off!

KYBELLA (deoxycholic acid) injection, which contours and improves the appearance of moderate to severe submental fullness due to submental fat. Submental fullness, also known as “double chin,” can affect adult women and men of all ages and weights, and is influenced by multiple factors, including aging and genetics. KYBELLA™ is a formulation of a naturally occurring-substance (deoxycholic acid) that targets and destroys fat cells in the area where it’s injected. Once those cells are destroyed, they can no longer store or accumulate fat. Once the aesthetic response is achieved with KYBELLA™, re-treatment is not expected to be required. Treatments will be performed one month apart by your board-certified dermatologist. Most patients will require 2-3 sessions of 2 vials each session. Minimum purchase 2 vials.

Sculptra Filler 20% off!

Sculptra® Aesthetic is designed for overall facial volume loss. Sculptra Aesthetic is an FDA-approved injectable biostimulatory filler that helps gradually replace lost collagen—the most common protein in the body that is used to form a framework to support cell and tissue—for results that can last more than two years. Sculptra Aesthetic® filler helps to thicken the skin in target areas, thus easing the appearance of hollowness. This treatment was formulated specifically for the problem of lost facial volume and can provide long-lasting improvements by increasing the skin’s elasticity by stimulating the body’s natural collagen production to increase the thickness of the skin by restoring deep underlying structure of the skin. Sculptra Aesthetic is performed over a few sessions to accomplish desired results, generally every 4-6 weeks for an average of three sessions. Minimum 2 vials

Sclerotherapy Packages 20% off!

Sclerotherapy is a medical procedure that treats varicose and spider veins. The procedure involves injecting a solution directly into a small superficial vein, causing the treated vein to seal shut and disappear from view over time. The treated blood vessel (vein) is then naturally resorbed by the body. This procedure will be performed by your board-certified dermatologist and treatments should be done about once a month. Generally 3-6 treatments are needed for best results, and some patients may need more treatments. Note: Not all veins are good candidates for sclerotherapy, the physician will need to examine you to confirm you are a good candidate.

PRP (Platelet-rich plasma) for Hair Loss 20-25% off!

PRP (platelet-rich plasma) therapy for hair loss (alopecia) is a treatment in which a person's blood is drawn, processed, and the platelet-rich plasma portion is injected into the scalp. PRP injections trigger natural hair growth and maintain it by increasing blood supply to the hair follicle and increasing the thickness of the hair shaft. At least three treatments one month apart are strongly recommended, and many patients will benefit from more treatments. All treatments will be performed by your board-certified dermatologist approximately 1 month apart.
