Does Coolsculpting Tighten Skin?

August 15, 2022

Over the years, many questions surround the [#1 non-invasive fat reduction method, CoolSculpting](#). Now, people are asking, "Does CoolSculpting Tighten Skin?" This is a critical question for people considering this treatment. Fat reduction often leads to excess or sagging skin afterward. While this is true for liposuction surgery, recent studies suggest CoolSculpting has the opposite effect by tightening the skin.

In fact, the FDA recently cleared CoolSculpting for improving the appearance of lax tissue in the submental area. In addition to reducing stubborn fat cells in the skin and neck, treatments also tighten the skin. Read on to learn more about fat in the submental region and how CoolSculpting with Haus of Aesthetics reduces fat cells while simultaneously improving loose skin.

[Learn about CoolSculpting cost>>](#)

What Causes Fat To Buildup In The Neck And Chin?

Excess fat in the submental area is common for most people. However, double chins and neck fat or turkey necks are not always the result of lifestyle choices as some think. Truthfully, fat in the submental area is stubborn and influenced by factors like gender, hormones, age, and even genetics. According to polls, double chins affect 2 out of 3 adults. Before CoolSculpting became available, Liposuction was the only way these people could eliminate their double chins. CoolSculpting provides a safe and non-surgical way to reduce submental fullness without any drawbacks of a surgical procedure like lipo.

Clinical Evidence Provides Coolsculpting Improves Skin Laxity

[Cryolipolysis and Skin Tightening](#), a study found in the Journal of Dermatological Surgery, says, "Independent assessments by patients and investigators found consistent improvement in skin texture and laxity for treatments to the outer thighs, abdomen, arms, and back." The study's final report claims, "This clinical evaluation demonstrates consistent improvement in skin texture, laxity, and cellulite after Cryolipolysis as independently assessed by patients and investigators."

[See the impressive CoolSculpting Elite before and after photos>>](#)

CoolSculpting and Skin Tightening: What's the Aftercare Like?

One reason why men and women love CoolSculpting is it doesn't require a lengthy recovery. People can schedule their appointments during their lunch breaks and return to work after. The procedure is tolerable if you choose a skilled provider like Haus of Aesthetics.

Though CoolSculpting skin tightening treatments involve minimal downtime, there are ways you can speed up the results:

- Massage the treatment area gently after to help flush out the dead fat cells
- Apply warm compresses to reduce pain, swelling, and cramping
- Wear comfortable clothes that put minimal pressure on the body
- Drink plenty of water
- Stay away from processed foods, refined sugar, and carbohydrates
- Eat more vegetables, whole grains, lean protein, and fruits
- Avoid alcohol, as it increases the chances of bruising
- Stay active to increase blood circulation (light walking and stretching counts)

Is Coolsculpting Right For Me?

With the clinical studies and trials further proving CoolSculpting improves loose or sagging skin on the neck and chin, many people are considering this revolutionary treatment. Unfortunately, cooling sessions are not suitable for everyone. To be an ideal candidate, you meet the necessary criterion. Scheduling a consultation with Haus of Aesthetics is the quickest way to determine if you are a viable CoolSculpting candidate.

Haus of Aesthetics is the leading provider of CoolSculpting Elite, the newest and most effective fat-freezing treatment. When you schedule a consultation with Haus of Aesthetics, you undergo a medical evaluation to determine if CoolSculpting suits your body and aesthetic goals.

Coolsculpting Near Me

If you want to learn more about CoolSculpting and how it reduces fat in the submental region, tightening the skin of chin and neck, contact Haus of Aesthetics. COOLSCULPTING ELITE IN SALT LAKE CITY

CoolSculpting is known as the most popular non-surgical fat reduction treatment. This innovative CoolSculpting treatment uses a revolutionary cooling technology, Cryolipolysis, to target and attack diet and exercise-resistant fat cells. This treatment is FDA-cleared to treat the most common problem areas on the body, like the lower stomach, upper abdomen, inner and outer thighs, love handles, and more. Best of all, CoolSculpting is virtually painless with minimal downtime. In addition, CoolSculpting's safety and efficacy are also reinforced by numerous clinical studies and successful trials. Now with the NEW CoolSculpting Elite, you can reduce twice as many unwanted fat cells in less time! With so many positive advantages, it is easy to see why millions of people around the world elect to cool sculpt their bodies to perfection without requiring invasive surgeries like liposuction.

Learn more about CoolSculpting in Salt Lake City with Haus of Aesthetics. We are proud to be a primary provider of safe, effective CoolSculpting Elite treatments in the SLC area. Best of all, our clients enjoy all treatments in our luxury facility with state-of-the-art technology. In addition, our staff is the best in the business. We stand out from our competitors by having an experienced CoolSculpting specialist who is also an Allergan CoolSculpting National Trainer with over 10 years of experience in the industry. If you are tired of trying every diet and exercise routine with no positive results, CoolSculpting sessions can help you learn how by scheduling a FREE consultation with the experts in SLC, Haus of Aesthetics, by calling (801) 997-8199 or texting (801) 436-5127.

- Over 4,000 treatments performed
- We are the only spa in Utah that offers a result promise
- 0% interest payment options available

COOLSCULPTING BEFORE AND AFTER PICTURES*

The impressive fat-reducing and body-contouring effects of the NEW CoolSculpting Elite can be seen in the results images below. The CoolSculpting before and after pictures show genuine results from actual patients of Haus of Aesthetics in Salt Lake City, Utah. As you can see from the images, each person achieves impressive results, including a noticeable reduction in fat, more attractive body contours, and an overall leaner and more toned body. However, it is important to note that results will vary per person.* The only way to secure safe and effective results is by selecting the most reputable and licensed provider. Clients in Salt Lake City and surrounding areas in Utah select Haus of Aesthetics for their aesthetic treatments.

RESULTS PROMISE

At Haus of Aesthetics, we truly believe your results showcase our success. We understand that CoolSculpting is an investment and want you to feel confident moving forward. Our specialists use the most advanced technology making us leaders in the body contouring industry. We feel confident that you will be thrilled with your results, which is why we are so excited to offer our Results Promise.

5 HAUS RULES TO ENSURE YOUR RESULTS PROMISE

- Signed Treatment Plan outlining your timing, number of applications, and treatment interval. Following this protocol will provide you with the best results for your specific needs.
- Final result assessment will take place 4 months after your last treatment.
- Must be within 3 lbs. of your original weight. Weight fluctuations change our body composition altering the benefits of CoolSculpting.
- Pictures are required at every visit unless otherwise specified by your specialist. Pictures help us to assess your progress and document your changes that occur with CoolSculpting.
- Communication must be consistent throughout your journey. Planning around life events or changes is essential to your success.

Our promise is simple. At your four month follow up appointment you must be within 3 lbs. of your original weight, complete your full treatment plan, and together we'll determine that there has been a change to your body. If a change is not visible, Haus of Aesthetics will retreat you again for free! We'll wait another four months to take final pictures and assess the results together.

If your Specialist determines there's still no visible change, then Haus of Aesthetics will provide a spa credit to be used toward other services.

WE'RE SO EXCITED TO GO ON THIS JOURNEY WITH YOU AND TO SEE YOUR RESULTS!

UNDERSTANDING HOW COOLSCULPTING REDUCES FAT CELLS

CoolSculpting sessions target fat cells below the skin's surface. Using a scientifically proven process known as Cryolipolysis, the applicators subject resistant fat cells to advanced cooling without injuring surrounding skin and tissues. During the treatments, some of the underlying fat cells "freeze." This triggers apoptosis or cell death—eventually causing the cell's membrane to become brittle and rupture. Weeks after the procedure, the body gathers frozen and dead fat cells. Next, the body naturally metabolizes and removes them from the body as a form of waste via the lymphatic system.

You'll feel a slight suction sensation as the applicator adheres to your body. During the procedure you may experience sensations of pulling, tugging, mild pinching, intense cold, tingling, stinging, aching, and cramping at the treatment site. These sensations subside as the area becomes numb.

WHAT TO EXPECT DURING YOUR COOLSCULPTING TREATMENTS

If CoolSculpting is suitable for your body and goals, the specialists at Haus of Aesthetics create the perfect treatment plan to achieve optimal fat reduction and body contouring.

GET PREPPED

Once you work on a personal treatment plan with the Haus of Aesthetics experts and have decided on treatment areas, the specialist applies a clear gel to create a barrier between the cooling panel and your skin. CoolSculpting's clinical trials prove this treatment is safe and effective at reducing fat in 9 areas of the body. Now, with CoolSculpting Elite, patients can enjoy dual applicators allowing you to treat two areas at once.

LET THE SCIENCE WORK

During your session, you may feel a slight tugging sensation as the applicator activates and adheres to your skin. During the procedure, you may continue to feel pulling, mild pinching, intense cold, tingling, and similar feelings. The sensations eventually stop once the treatment area becomes numb.

JUST CHILL

Once your treatment area is numb, you can fully relax during your cooling session. Many of our patients can read, chat with friends, work, or even take a nap. Treatment times vary depending on how many treatment areas and applicators are used. Times can last anywhere from 2-5 hours. We offer snacks and drinks during your session—including a Netflix start so you can Netflix and CHILL with CoolSculpting.*

AFTER THE CHILLING

After the session ends and the applicator is removed from the skin, your specialist does a short massage on the treatment area to break up treated fat cells and jump-start the fat reduction process. The massage is often said to be the most uncomfortable part of the process, but most people tolerate it just fine. Especially when they find out that the massage is responsible for 67% of the results!

Some patients may experience slight swelling, bruising, numbness, or tenderness. These effects are the natural symptoms of an immune response. They are often mild and dissipate on their own. Staying hydrated, exercising, and eating healthy are excellent ways to help your body eliminate the dead cells CoolSculpting destroys with minimal side effects.

COOLSCULPTING TREATMENT AREAS

At Haus of Aesthetics, you can customize your non-surgical body contouring with our CoolSculpting Elite sessions. The new CoolSculpting Elite is the first non-invasive fat reduction treatment to gain FDA clearance for treating 9 areas of the body. These areas include:

- Chin (double chin)
- Jawline (jowls or neck fat)
- Thighs (inner and outer thighs)
- Abdomen (belly fat)
- Flanks (love handles)
- Bra fat
- Back fat
- Underneath the buttocks (banana roll fat)
- Upper arms

COOLSCULPTING SIDE EFFECTS

After your non-surgical body contouring session, you may experience slight swelling, bruising, numbness, or tenderness. Any of these effects are mild and manageable—they usually dissipate on their own within weeks. Most people can resume their normal activities, such as work and even exercise the same day of their treatment.

If you are concerned about CoolSculpting side effects or CoolSculpting risks, you can speak with our knowledgeable specialists during your complimentary consultation.

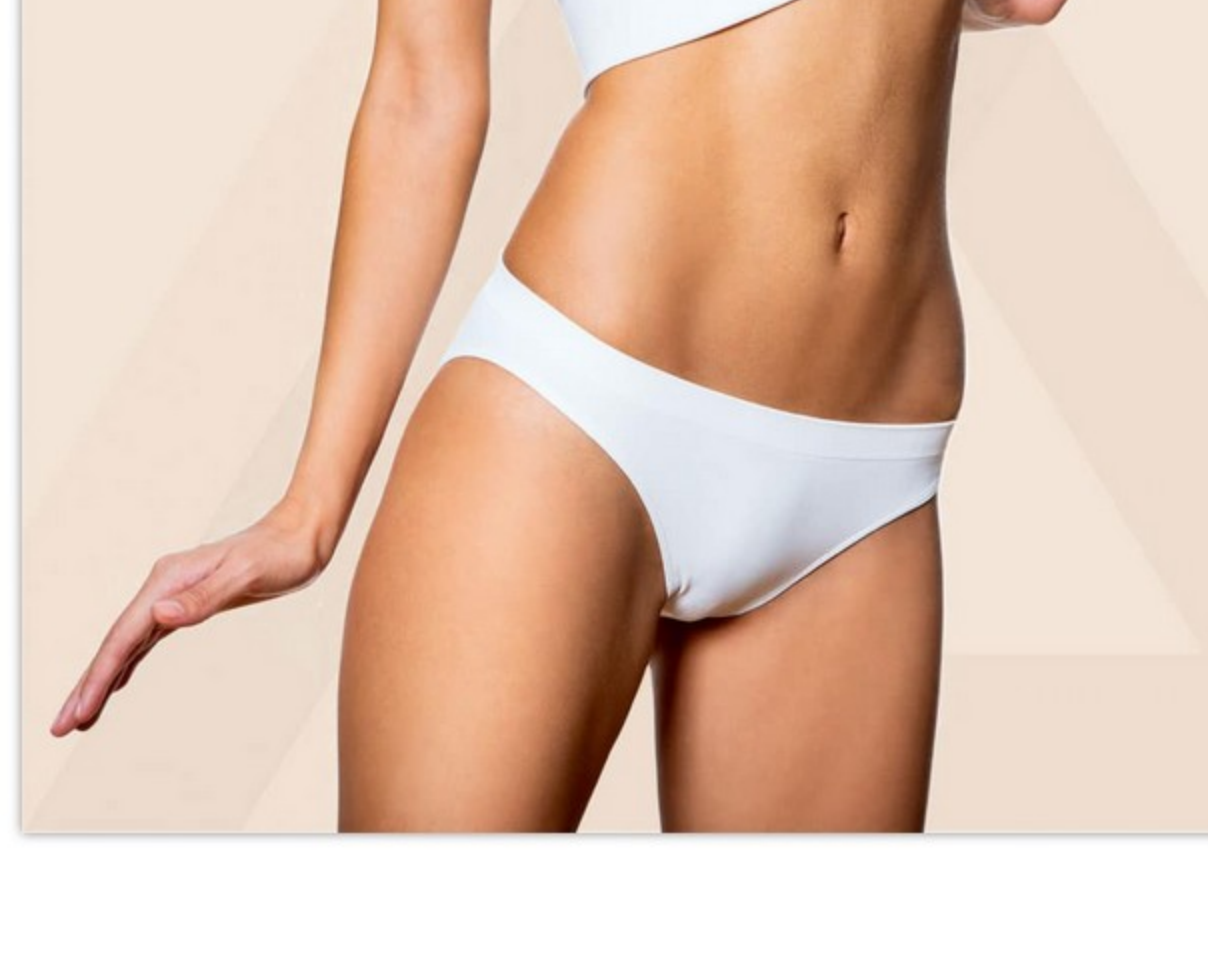

WHY PEOPLE CHOOSE TO BODY CONTOUR WITH HAUS OF AESTHETICS

At Haus of Aesthetics, your results are our success! Body contouring with CoolSculpting is an investment, and our experts want you to feel confident moving forward. That's why we dedicate ourselves to continued education and use the most advanced, up-to-date technology, making us the leaders in the body contouring industry. We feel confident that each client will love their results. We have performed over 3,500 CoolSculpting treatments, with each one a success. When you choose Haus of Aesthetics, you're in expert hands. We have 10+ years of experience in this business and are proud to be #1 in Utah and Top 25 in the Nation!

COOLSCULPTING FAQS

- HOW MUCH DOES COOLSCULPTING COST IN SALT LAKE CITY?**
Because CoolSculpting is a customizable treatment, prices vary. Haus of Aesthetics in Salt Lake City offers a complimentary consultation so we can assess the areas you want to treat, then create a customized treatment plan and apply as many discounts as we can. On average, pricing starts at \$1,600 and goes up from there.
- DO COOLSCULPTING RESULTS LAST FOREVER?**
Yes! CoolSculpting permanently removes a percentage of fat cells. Once gone, those cells can never return or grow back. However, a portion of cells left behind can expand with weight gain. Proper diet and exercise ensure you continue enjoying your new CoolSculpted physique long-term.
- WILL I GET THE SAME COOLSCULPTING RESULTS ANYWHERE I GO?**
No! CoolSculpting is a skill-sensitive treatment. You must select the proper fat-freezing specialists to achieve maximum results. This is why so many Salt Lake City residents choose Haus of Aesthetics for their CoolSculpting experience. Our Lead CoolSculpting Specialist is an Allergan National CoolSculpting trainer with over 10 years of experience in the industry! You're in excellent hands when you select us.
- WHEN OR WHY WOULD COOLSCULPTING NOT WORK?**
Haus of Aesthetics is proud to help each patient achieve beautiful results. Often when a client is unhappy, it is due to being under-treated or not properly educated. There are very rare cases where a client does not respond to the fat reduction treatment. Out of 3,000+ treatments, we have only ever had 1 "non-responder". Our treatments were:
- WHEN WILL I SEE MY COOLSCULPTING RESULTS?***
CoolSculpting eliminates fat cells immediately. Then weeks after treatment, the body works to slowly gather and remove those dead cells from the body. CoolSculpting is very gentle on your body and gives your skin a chance to bounce back with fat reduction. The overall fat reduction process can take up to 90 days to see your final results. As always, results will vary per person.*

CLIENT TESTIMONIALS

- "If you are seeking a place to get injections, skincare, or anything else, Haus of Aesthetics is the place to go! I want facial, they have the ability to do it. The employees are happy and professional, the best combination. I recommend seeing Alysa for your injections!" **★★★★★**
- "I love Heather! She did an amazing job with my "acne." There are very rare cases where a client does not respond to the fat reduction treatment. Out of 3,000+ treatments, we have only ever had 1 "non-responder". Our treatments were: Very honest and so helpful. The spa is so cute and I'm so happy with my results!" **★★★★★**
- "Great service. Got me in quickly and were friendly and informative. Answered all my questions and explained everything thoroughly. They have great deals frequently that make it well worth the money! The office is clean, professional and quite aesthetically beautiful!" **★★★★★**

The 4 Most Popular CoolSculpting Areas & Results You Can Expect

April 15, 2023

Whether you're trying body contouring for the first time or you're coming back for more, you've got so many options. Cryolipolysis, the science behind CoolSculpting, reduces subcutaneous fat cells at the treatment site by up to 25%. That's after just one treatment.

A CoolSculpting machine can treat many areas of the body. So how do you choose which you're going to sculpt next?

The reason people choose specific locations to target with CoolSculpting over and over again is that these are spots where fat responds especially well to the treatment. And if you take the proper steps, your CoolSculpting results can last for years to come.

Best CoolSculpting Areas

The new CoolSculpting Elite machine comes with seven re-engineered applicators. Each applicator differs in size and shape. The new technology makes CoolSculpting Elite the only FDA-cleared treatment to reduce fat non-invasively from nine areas.

The nine treatment areas include the abdomen, thighs, flanks, upper arms, submental region, back fat, armpit fat, knee fat, banana roll below the buttocks, and jawline.

As a popular treatment for well over a decade, studies and patient experience have shown where excess fat tends to accumulate. Let's go through some of the areas patients choose the most, for the best possible toning and tightening results.

It's important to note that CoolSculpting is not a weight loss procedure. You should be within a few pounds of your ideal body weight before sculpting areas to achieve the best results.

CoolSculpting Stomach

- Hydrating properly
- Limiting time in the sun
- Maintaining sunscreen use
- Wearing protective clothing
- Avoiding tanning beds and sunlamps

No matter the age or gender, abdomen or belly fat is one of the most common concerns to address. It can make clothing fit uncomfortably, bring unwanted insecurities, and make it more challenging to go through the day.

When deciding whether you would be an ideal candidate for tummy CoolSculpting, check to see if you have enough fat to pinch between your fingers. The area of fat to pinch should be movable. If you have more than three inches of fat to grab onto, liposuction may be a better starting point to achieve your body goals.

Tummy Sculpting Before and After*

Before and after images are the most effective way to show the transformative results possible with this newest fat-freezing treatment.

From toning up a soft belly to finally getting that six-pack, CoolSculpting can help get you the abdominal area you want. Get rid of the extra bulkiness that you're carrying around, toning the tummy in the process.

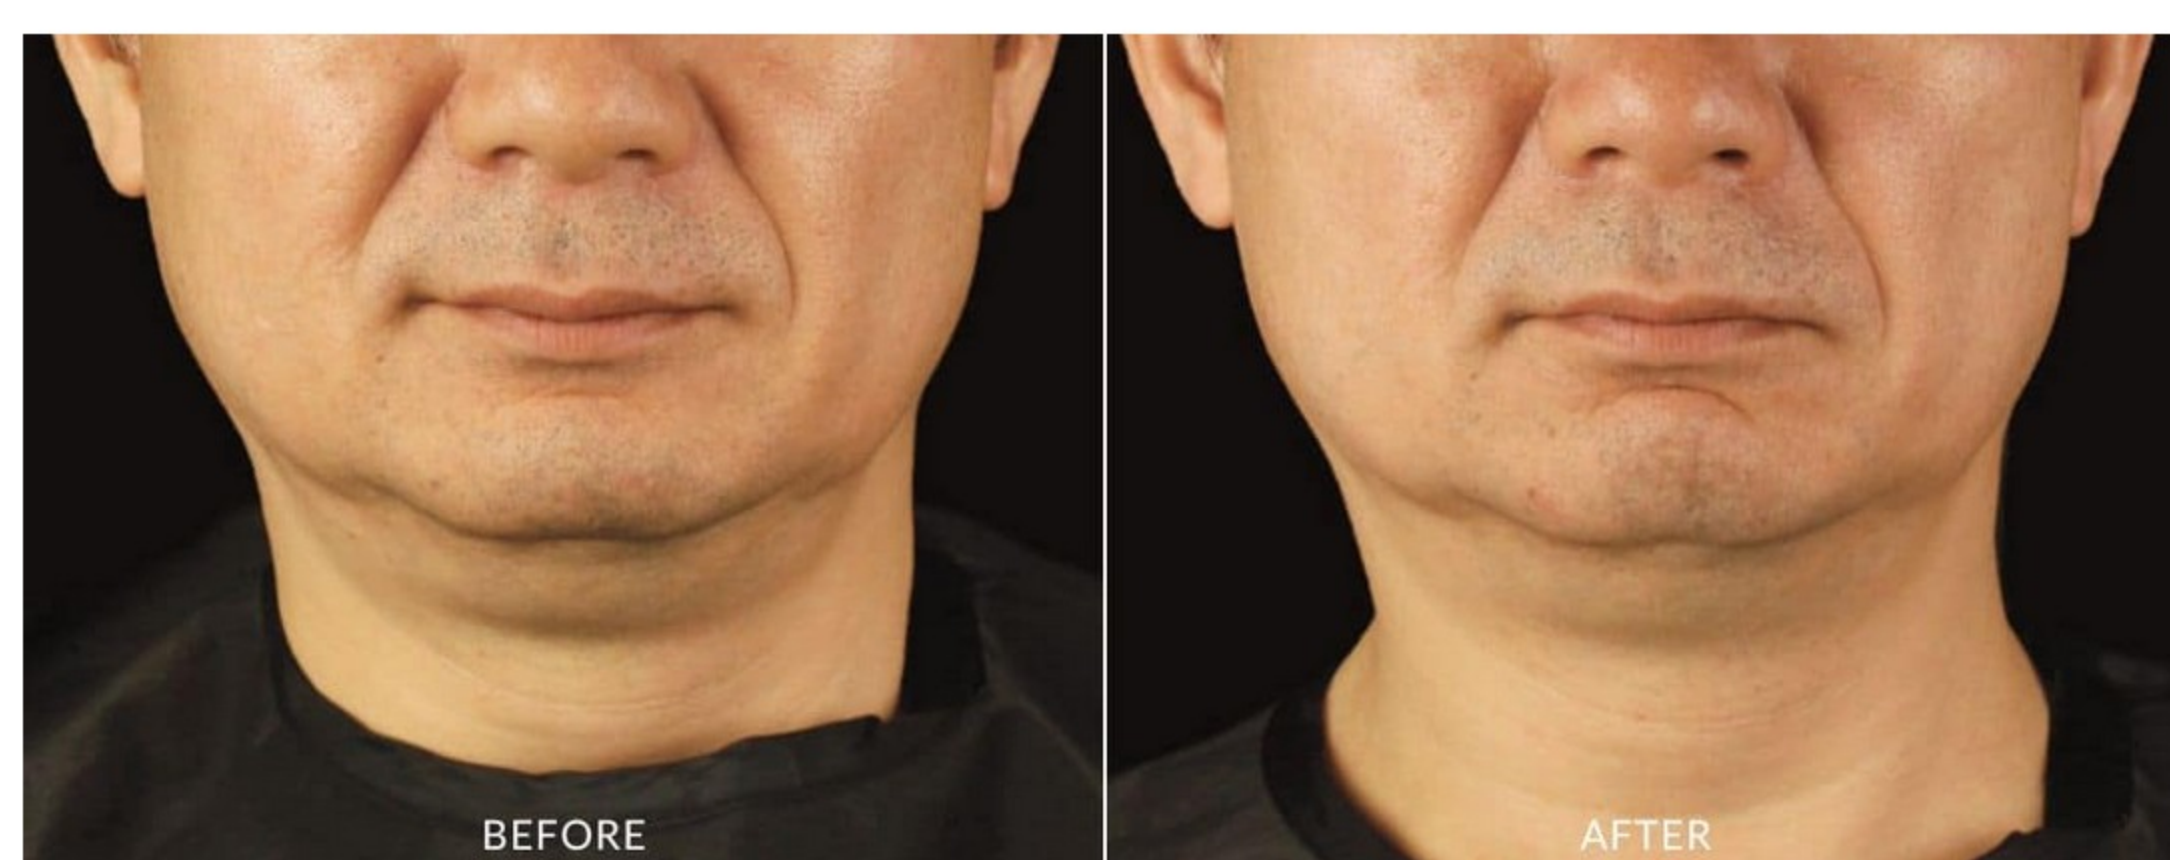

CoolSculpting Neck

As we age, the neck and chin are very common places where stubborn fat bulges gather. It doesn't even have to be from certain lifestyle choices. Many times, the fat that winds up in the neck area is because of genetics, hormones, and gender. Age also plays a large role.

With advancements in technology, patients can now choose CoolSculpting as a non-invasive sculpting treatment for double chins. In the past, liposuction would have been the best option, but not everyone has the time or desire to go under the knife.

Whether you have a double chin or would simply like to address excess fat in the neck area, CoolSculpting can treat it.

Neck Sculpting Before and After*

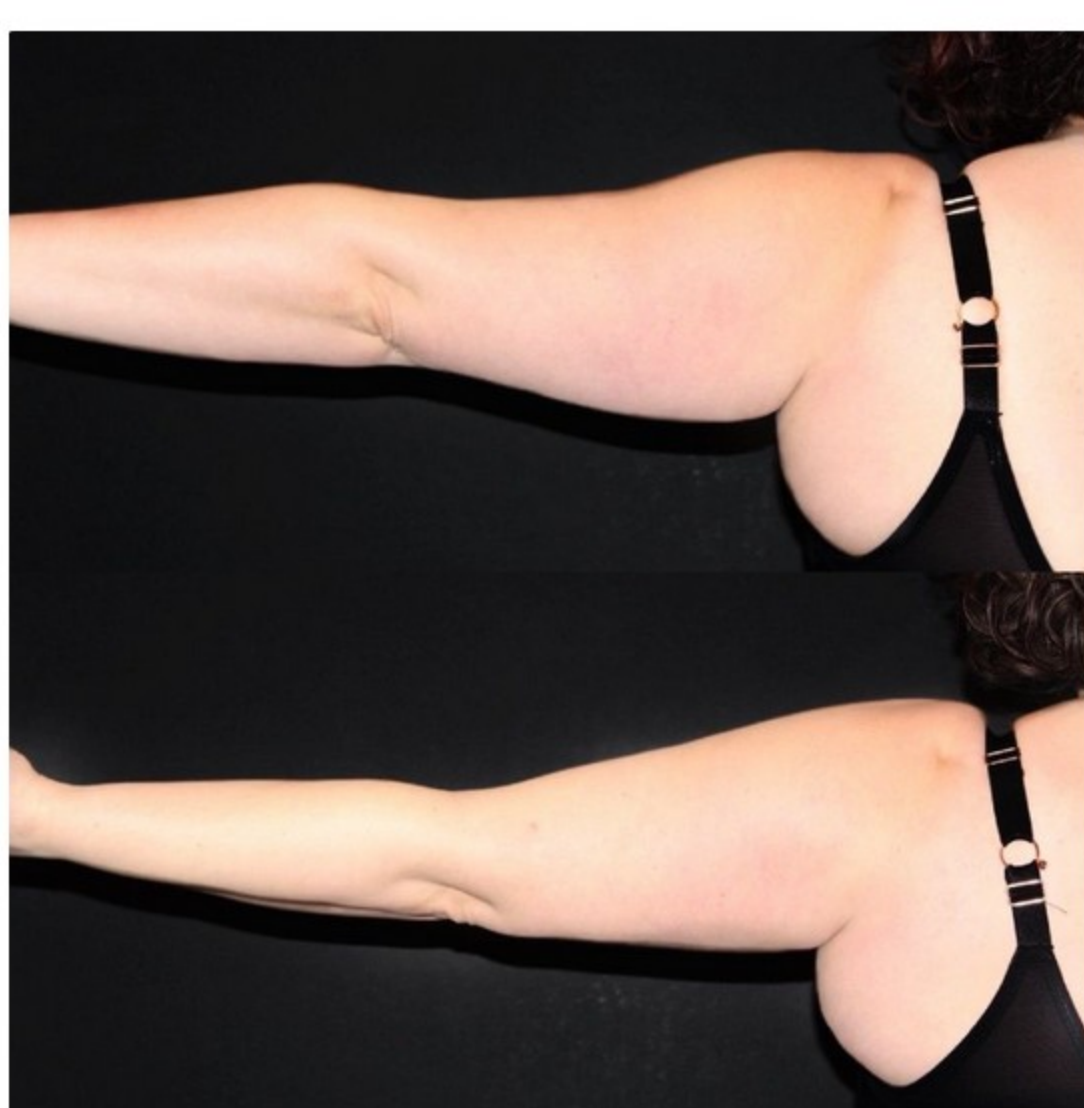

CoolSculpting Armpit Fat

The underarm area in general can be a tough one to combat as time goes by. Fortunately, CoolSculpting can make a massive difference in the definition of your underarms, armpits, and bra line area. Your CoolSculpting technician will help you find the right applicators for the area you need to tone.

One thing to note is that body contouring is best for lumpy fat. If you've lost significant weight and now have loose, sagging skin, you might be a better candidate for a Brachioplasty. But if you're unhappy with your 'bat wings', CoolSculpting underarms could be the solution.

Underarm Sculpting Before and After*

CoolSculpting Inner & Outer Thighs

Achieving leaner legs is not necessarily an easy thing to do on your own. Sometimes, the gym just doesn't cut it. Even if you're eating healthy and getting exercise, you might need a little boost to push your body past a plateau so that you can continue reaching goals.

One thing patients particularly like about a CoolSculpting thighs treatment is that it can target saddlebags. If you are all too familiar with those bulges of fat on the outer thighs and ready to slim them down, a few treatments should do the trick.

In fact, anywhere around the thighs can generally receive some sculpting. Whether you want to focus above the knee, beneath the buttocks, or on your inner/outer thighs, CoolSculpting has you covered.

Leg Sculpting Before and After*

*As with any cosmetic treatment or procedure, results vary from patient to patient. You should consult with your healthcare provider and consider scheduling a consultation for an individual assessment. This will help you determine how your body might respond and which treatment is best for you.

Ideal Candidates for CoolSculpting Elite

An important thing to consider is if you are the right CoolSculpting candidate. CoolSculpting Elite is not a treatment suited for every person. There is such a thing as an ideal candidate.

People choosing body contouring treatments are generally healthy, active adults who are fit, but struggle with resistant fat cells in problem areas. These isolated fat deposits resist diet and exercise, requiring additional steps to remove. It is not advertised for adults who are significantly overweight or obese.

The only way to achieve the right CoolSculpting results is to be the ideal candidate. If you question whether CoolSculpting Elite is suitable for you, contact your provider for a physical evaluation.

Salt Lake City Fat Freezing Treatment

With many providers available in Utah, finding the most reputable can be challenging. This is why patients in SLC select Haus of Aesthetics as their body contouring provider. Our patients receive the best body contouring results using the CoolSculpting Elite treatment. We are also proud to provide this popular body contouring experience conducted by an actual Allergan trainer.

Through safe and highly effective technology, our team is here to help you become the best version of yourself. Here's how to prepare for CoolSculpting and maximize the potential results you can harness.

It is time to discover why so many people are talking about the new fat-freezing technology. Don't hesitate to reach out with any questions!

Is the Gym Better Than CoolSculpting?

June 27, 2023

When it comes to getting in shape, having the patience to see results can be pretty trying. Especially if you've been eating healthy and staying active consistently but still haven't reached your goals (or come as close as you'd like). That's when many people start to question whether they can use outside help to get their body contouring journey going finally.

So the question is, is the gym better than CoolSculpting? Can you still achieve the same results on your own that you'd get with fat-freezing technology?

Freezing fat cells to eliminate stubborn bulges can lead to more dramatic results that are visible faster than you would see working out at home or the gym. Especially if you choose CoolSculpting Elite. The Elite version of CoolSculpting is an advanced style of body contouring that performs better than the original.

Let's find out whether CoolSculpting Elite will bring you the results you're looking for.

CoolSculpting Elite Vs. CoolSculpting

Legacy CoolSculpting Results

The original CoolSculpting treatments involve a technician placing a proprietary applicator over the treatment area. When the machine turns on, the applicator gently suctions the skin up into the device. This action effectively draws the subcutaneous fat cells to the surface, exposing them to calibrated cooling. Cold temperatures "freeze" the underlying fat cells without harming the skin or surrounding tissues. When the fat cells freeze, the cell membrane ruptures, rendering them useless.

Afterward, the cells die, and the body naturally processes them out through the lymphatic system. Once they exit the body, they never return. CoolSculpting provides long-term fat reduction if the patient maintains a healthy weight. Excessive weight gain obscures the results of CoolSculpting.

CoolSculpting Elite Results

CoolSculpting Elite features many improvements to the fat-freezing experience. The new machine and applicators offer many advantages over the old equipment making the treatment more comfortable and effective.

The original machine can only use one applicator at a time during the cooling session. Now, CoolSculpting Elite allows dual sculpting. In response, treatments double the fat reduction, and sessions are shorter.

CoolSculpting Elite is the only FDA-cleared non-invasive fat reduction method using Cryolipolysis capable of targeting nine areas of the body.

Popular CoolSculpting areas this fat-freezing procedure treats include:

- Chin
- Jawline
- Thighs
- Abdomen
- Flanks
- Bra fat
- Back fat
- Underneath the buttocks
- Upper arms

The applicators are also entirely re-designed. Each new handheld device is C-shaped. As a result, technicians contour the body easier.

Moreover, the applicators now feature a cooling panel that is 18% larger than the original. The size increase contributes to the more impressive fat reduction during each cooling session. CoolSculpting Elite sets itself apart from other available fat reduction options.

CoolSculpting Elite Before and After

Like most cosmetic treatments, the professional performing the treatment affects the results and experience. Therefore, when browsing the list of providers, look for recent client testimonials, Google reviews, and before and after images from real patients.* Each resource is vital in ensuring you select the most reputable provider in the SLC area.

The best way to get an authentic feel for a provider is to schedule a free consultation. During this visit, you can easily determine if they are the right professional for your fat-freezing treatment. You can also see their establishment, interact with the staff, and address any questions or concerns you may have about the treatment experience.

*Results may vary depending on your treatment area, number of CoolSculpting sessions, and aftercare.

How the Body Responds to Exercise Vs. CoolSculpting

The difference in your results lies in how the body responds to your methods. When you diet and exercise to lose weight or tone the body, you are causing the fat cells to shrink. These cells can still expand again if you gain weight back.

Shedding fat by being active will help you lose weight all over the body. CoolSculpting allows you to pick specific areas of your body to focus that weight loss on.

With CoolSculpting, you are actively targeting and eliminating some of the fat cells in the treatment area. These cells will process through the body and cannot come back, making results for more permanent and noticeable.

Exercise After CoolSculpting

Even though CoolSculpting provides superior results than what you could get at the gym due to its technological advancements, you can still use exercise to **make the most of your CoolSculpting Elite experience** and maintain results. Not only that, but you should continue to stay active and eat well after treatment to look and feel your best every day. The fat cells that you freeze away with CoolSculpting are gone forever, but the treatment does not get rid of all the fat cells, so you can still gain some weight back in the area.

Combining the advancements of CoolSculpting Elite with the proper nutrition and daily activity can help you avoid the dreaded yo-yo effect (struggling with gaining and losing weight).

Finding Official CoolSculpting Elite Providers

One of the most important components when considering using technology breakthroughs for your body is finding professional CoolSculpting providers. Besides word of mouth, searching your Salt Lake City zip code on the official CoolSculpting Elite website can bring a more comprehensive and accurate list. This list is also an excellent way to avoid falling prey to scams or people offering treatments with phony equipment.

Typing "CoolSculpting Elite near me" into your browser is definitely the fastest way to find local treatment providers. The results are sorted starting with the best-selling provider.

CoolSculpting Elite Near Me: Body Contouring in SLC

Are you ready to give CoolSculpting a try? Stop spending countless hours searching "CoolSculpting Elite near me." Haus of Aesthetics is the right choice in Salt Lake City, UT!
