The Potenza radiofrequency microneedling device is intended for electrocoagulation and hemostasis of soft tissue for dermatologic conditions. Potential side effects include temporary redness, temporary tingling, and burning sensation while receiving treatment. Like all medical procedures, not all patients are suitable for the treatment. Talk to your medical provider about the risks and benefits of this procedure. A qualified practitioner is solely responsible for evaluating each subject's suitability to undergo treatment and for informing those being treated about any risks involved with the treatment, pre-and postoperative care, and any other relevant information. Individual results may vary and are not guaranteed. 921-7043-008\_Rev 2

Potenza<sup>TM</sup>  
RF MICRONEEDLING

**NOTHING  
FROM A JAR  
CAN MAKE  
YOUR SKIN  
ACT LIKE THIS**

# ALL SKIN TYPES.

Anywhere on the body.

## Introducing the Potenza™ radiofrequency **MICRONEEDLING TREATMENT**

New Potenza RF Microneedling with Tiger Tip technology performs like no topical (or even filler) ever could, actually stimulating your body's collagen and elastin levels to treat the advanced signs of aging. Skin looks younger, firmer.\* And texture, tone and clarity? Smoothed, brightened and improved.

## **TIGER TIP™ TECHNOLOGY**

Potenza's Tiger Tip needles eliminate the clinician's need to essentially re-trace their steps, by providing them with the technology to perform both shallow and deep treatments at the same time, and tailor those treatments to individual skin types – meaning faster, more customized treatments and fantastic skin revitalization results.

## Frequently asked **QUESTIONS**

### **Is this treatment right for me?**

The Potenza microneedling treatment can treat a wide variety of skin concerns on the face and body. Talk to your provider to see if this treatment is right for you.

### **What is the benefit of microneedling treatments that use RF energy?**

Using RF energy will trigger your body's natural response to create an increased level of collagen and elastin production, resulting in an enhanced skin revitalization treatment versus microneedling alone.

### **How long does the treatment take?**

Treatment times may vary, however most treatments can be performed in 45 minutes or less.
