The FlexSure applicators provide heating for the purpose of elevating tissue temperature for selected medical conditions such as temporary relief of pain, muscle spasms, and increase in local circulation. Like all medical procedures, not all patients are suitable for the treatment. Talk to your medical provider about the risks and benefits of this procedure. A qualified practitioner is solely responsible for evaluating each subject's suitability to undergo treatment and for informing those being treated about any risks associated with the treatment, pre- and postoperative care, and any other relevant information. Individual results may vary and are not guaranteed.

FLEXSURE™  
by CYNOSURE®

The  
Ultimate  
Body  
Boost/

))) BODY

## Treat your body to a boost✓

Introducing the FlexSure™ applicator. The body boost treatment that helps you achieve a more youthful appearance. Designed to curve and conform to your body, it specifically targets even the hardest-to-treat areas.

## Feel the form-fit effect✓

The FlexSure applicator uses deep tissue Flex-heating technology, along with the world's first flexible form-fitting applicator, to effortlessly contour to areas once considered difficult to treat.

## Relax while it works✓

Each 15-minute treatment delivers a light warming sensation that's both gentle and soothing. Comfortable and convenient, this relaxing treatment requires zero downtime.

## FREQUENTLY ASKED QUESTIONS

---

### AM I A CANDIDATE?

The FlexSure applicator can be used on any skin type, any time of year, with no BMI restrictions. The FlexSure applicator has multiple sizes that allow for non-invasive and customized treatments. Since the FlexSure treatment requires no downtime, you can return to your daily activities immediately.

### HOW DOES IT WORK?

The FlexSure applicator is a radiofrequency body treatment that provides deep, even tissue heating. The peel & stick applicator curves and conforms to your body to reach those hard-to-treat areas. Common treatment areas include abdomen, love handles, arms, thighs, and knees, and have been described as a gentle hot stone massage.

### HOW MANY TREATMENTS WILL I NEED?

The amount of treatments required will vary by patient. A minimum of 3 sessions per treatment area is recommended. Each session takes approximately 15 minutes, making the FlexSure treatment a great lunchtime treatment.

Speak to your provider for a consultation to discuss your target areas and number of sessions required.

### WHEN CAN I EXPECT TO SEE RESULTS?

Results can be seen in as little as 3 treatments, but optimal results are seen after a series of 5 treatments.
