# CoolSculpting before and after images of actual patients

By Jessica Waclawski November 20, 2020 4:53 am No Comments

## COOLSCULPTING BEFORE AND AFTER IMAGES OF ACTUAL PATIENTS

CoolSculpting before and after images demonstrate why millions of Americans select this fat freezing procedure to slim their physique and sculpt attractive contours. Read on to see the physical transformations of real patients, to learn more about CoolSculpting and if the treatment is right for you and discover how to ensure you get great before and after results.

### COOLSCULPTING BEFORE AND AFTER IMAGES\*

In addition, to raving testimonials, CoolSculpting before and after photos prove the treatment as a great way to reduce stubborn bulges and sculpt amazing contours. Of course, results may vary per individual, as is true with all body shaping treatments\* The best way to obtain your own transformation is to select a reputable provider to perform this technique sensitive procedure

[Learn how CoolSculpting works>>](#)

### COOLSCULPTING IS A TECHNIQUE SENSITIVE PROCEDURE

Not all CoolSculpting medical spas or providers are equal. Like other cosmetic treatments, the person providing the fat reduction process greatly determines the patient's experience and results. For the best results, it is essential to choose a provider that specializes in nonsurgical body contouring.

Furthermore, experienced providers understand the screening protocols for potential CoolSculpting candidates.

CoolSculpting is not designed for everyone. Rather it is for healthy active men and women who struggle with fat deposits that resist diet and exercise. If you want outstanding CoolSculpting results, it is important to be a good candidate for the fat freezing treatment. Professionally trained and experienced providers will tell you during your consultation whether CoolSculpting is right for you.

Will you get incredible CoolSculpting before and after results? Find out by scheduling a complimentary consultation with the body shaping experts at Metro Laser CoolSculpting MedSpa.

### COOLSCULPTING TREATMENT AREAS

As witnessed in the CoolSculpting before and after images, this procedure tackles nearly any difficult bulge found on the body. The most popular treatment areas include the abdomen (belly fat) and flanks (love handles and hips). In addition, CoolSculpting effectively reduces upper arm fat, armpit fat (referred to as bra bulge), submental fullness (neck fat and double chins), fat below the buttocks (referred to as banana roll), inner and outer thigh fat, back fat, and more.

### GET YOUR OWN COOLSCULPTING BEFORE AND AFTER TRANSFORMATION

Do you want your own CoolSculpting before and after transformation? Now is the time to get the physique you so desire! Get started by scheduling a free consultation with Metro Laser CoolSculpting MedSpa, the premier CoolSculpting experts in Philadelphia, by filling out the form online or calling (215) 999-3717.

# Cold Sculpt | Freeze Fat Cells with CoolSculpting

By Jessica Waclawski December 10, 2020 10:51 am No Comments

## COLD SCULPT | FREEZE FAT CELLS WITH COOLSCULPTING

Cold Sculpt, also known as CoolSculpting, reduces difficult fat bulges by freezing fat cells to death. This fat reduction treatment provides a successful non-surgical alternative to Liposuction. Best of all, it is FDA cleared and requires no downtime. Furthermore, CoolSculpting results look natural and are long-lasting. We at Metro Laser in Philadelphia provide expertise in the fat freezing process.

### WHY MILLIONS OF PEOPLE OPT FOR COLD SCULPT OR COOLSCULPTING

- A non-surgical alternative to Liposuction.
- 35-minute procedure
- No downtime
- Scientifically proven safe and effective
- Contours attractive physiques
- Long-lasting results.

### THE SCIENCE OF COLD SCULPTING STUBBORN BUDGES

Cold Sculpting refers to the CoolSculpting method. A process discovered by a group of Harvard Scientists termed Cryolipolysis freezes fat cells to death while protecting the skin and surrounding tissue. Cryolipolysis stands for “cryo” = cold + “lipo” = fat + “lysis” = cell death and removal. Cold Sculpt is achievable because fat cells are less tolerant of cold temperatures than their neighboring skin cells.

[Learn more about CoolSculpting >>](#)

### HOW DOES COLD SCULPT WORK?

To understand how Cold Sculpt works, visualize sticking a bowl of melted butter and a glass of warm water into the refrigerator. Exposed to freezing temperatures, the butter turns hard, while the water gets cold, yet does not change from a liquid to a solid, like the butter. This reveals how water withstands temperatures that freeze fat.

The same premise holds when relating fat cells to skin cells (which comprise mostly of water.) Skin cells easily tolerate the cold temperature during a Cold Sculpt procedure. However, a fat cell membrane will crystallize and rupture when exposed to precise cooling. This results in the destruction or death of the fat cells. The lymphatic system then gathers these destroyed cells and processes them to prepare excretion as waste from the body.

### COLD SCULPT FOR LONG TERM FAT REDUCTION

Weight loss treatments differ from Cold Sculpt or CoolSculpting because such programs only shrink fat cells. During weight loss, fat cells will release a portion of the fat stored in the cell, yet weight gain causes the fat cells to re-expand. Cold Sculpt does not shrink fat deposits. It destroys them, making them non-functional. This alerts the immune (lymphatic) system to expel these obliterated frozen cells from the body. After 8 to 12 weeks following a treatment, the process is complete, and long-term fat reduction results.

[See before and after results >>](#)

### COLD SCULPT A NEW YOU

Say goodbye to those stubborn fat bulges, and welcome to a new skinner you. Schedule your free consultation today with [Metro Laser Spa](#), the premier Cold Sculpt provider in Philadelphia. Fill out the form online or call (215) 999-3717.

# How Much Does CoolSculpting Cost? | Determining CoolSculpting Prices

By Jessica Waclawski December 19, 2020 1:14 pm No Comments

## HOW MUCH DOES COOLSCULPTING COST? | DETERMINING COOLSCULPTING PRICES

When considering a cosmetic procedure, almost every person is concerned with the cost. For every patient, the total CoolSculpting cost is different. The total price tag for fat reduction will depend on the patient's personalized treatment plan. Learn more about the various factors that affect CoolSculpting cost and how to save money on fat freezing.

### UNDERSTANDING COOLSCULPTING

To fully understand the CoolSculpting cost, you need to understand the procedure. During one CoolSculpting treatment, a technician will use a proprietary applicator. It transmits the Cryolipolysis into the skin to effectively freeze the fat cells. The applicator draws the subcutaneous fat cells to the skin's surface, subjecting them to calibrated cooling, freezing them. Depending on the applicator size, treatment can take anywhere from 30 to 90 minutes. One session using a single applicator is known as a complete CoolSculpting cycle.

The CoolSculpting cost is determined using the number of cooling cycles you will require, and the applicators used during those cycles. Mirrored treatments, such as the treatments that cover the flanks, require an applicator on both sides. This type of treatment is considered two cycles because it requires two applicators.

### COOLSCULPTING APPLICATOR SIZE AND SHAPE

CoolSculpting applicators come in a variety of shapes and sizes. Each applicator is unique and made to provide optimal fat freezing for each part of the body. The size and number of applicators you need during a treatment plan will depend on your body shape and size. For some people, they may only require the use of one large applicator during a treatment. For others, they may need two small applicators to treat the same area. Different size applicators cost an additional amount. The large applicators cover more area, meaning that they will ultimately cost more. The smaller applicators will cost less. To understand the CoolSculpting cost fully, you must understand the applicators and how they work.

The best way to learn about the different applicators and what your body would require during your CoolSculpting session, schedule a free consultation. This gives you a chance to speak in-depth with a knowledgeable technician who can help determine which applicator will best treat your body and provide the most dramatic results.
