

Great-looking skin
doesn't have to be
complicated/

With all the invasive procedures, injectables, chemicals, and countless lotions and potions out there, isn't it time for a simple solution that works? The TempSure Envi treatment minimizes facial fine lines and wrinkles, and tightens skin*. It's safe for all skin types and levels of sun exposure, so it fits perfectly into any beauty maintenance routine, any time of year. With the TempSure Envi treatment, there's no surgery, no needles, and no downtime, so you can immediately get back to what you were doing, and look great doing it.

The TempSure Envi treatment is for the non-ablative treatment of mild to moderate facial wrinkles and rhytids. Like all medical procedures, not all patients are suitable for the treatment. Talk to your medical provider about the risks and benefits of this procedure. A qualified practitioner is solely responsible for evaluating each subject's suitability to undergo treatment and for informing those being treated about any risks associated with the treatment, pre- and postoperative care, and any other relevant information. Individual results may vary and are not guaranteed.

by CYNOSURE®

How does it work?

The TempSure Envi treatment delivers radiofrequency energy to gently heat your skin. Increasing the skin's temperature for a defined, therapeutic time triggers a natural response for your skin to create new collagen. The new collagen fibers are tight, dense, and neatly organized, giving you tighter*, younger-looking skin.

What are your problem areas?

Application areas include forehead lines, frown lines, crow's feet, smile lines, and wrinkles in the chin.

Frequently Asked Questions

Does it hurt?

The TempSure Envi treatment has been carefully designed with comfort in mind. 99% of patients described the treatment as comfortable.¹

How long are treatments?

Treatments last about 20-60 minutes depending on the area being treated. There is absolutely no downtime, allowing you to return to your normal activities immediately after the treatment.

When will I see results?

You will leave with a natural glow, and what patients describe as a "tighter*" feeling. After the treatment your collagen will continue to rebuild, enhancing your skin's appearance overtime.

Is this right for me?

Treatments are extremely safe and can be performed on all skin types. Unlike other technologies, treatments can be performed all year round.

Why TempSure Envi?

The TempSure Envi treatment is a simple solution for beautiful skin. It provides a soothing patient experience, while delivering beautiful results. Each treatment delivers consistent heat, giving you an effective, yet comfortable treatment every time!
