Your Citation Builder report explained

To Do

This citation has been ordered but the business data has not yet been submitted to the directory.

Submitted

We have submitted a brand-new listing and we're now waiting for the listing to go live. We check for live listings twice: the first check is made two weeks after initial submission and the second check is made four weeks after initial submission.

Pending

We have found an existing listing with incorrect data, and contacted the directory to request that they update it. We are currently waiting for these edits to be published on the live listing. This status is also used to indicate that the listing requires verification.

Live

We've created a new listing, which is now live on the directory. You can click the 'Live' icon to view this listing in a new tab.

Updated

We have updated the business data on an existing listing, and these updates have been successfully published. You can click the 'Live' icon to view this listing in a new tab.

Existing

We found an existing listing but were unable to update it, either because of the site's publishing policies or because all the data on the listing is correct with no updates required.

Replaced

We were unable to update this listing and have instead submitted data to a replacement site of similar Domain Authority.

R

This icon indicates a site which was added to the campaign to replace a listing we could not update.

Your Notes Explained

You need to follow up with the directory to verify the listing. The instructions will be in the notes.

A quick listing, which goes live as soon as we have submitted the data.

This website does not show photos on the listing.

You need to follow up with the directory by phone to verify the listings.

You can manually add the link to this listing and update your campaign report.

We have added individual notes that you can see by hovering over the icon.
