## How Does Semaglutide Work?

Semaglutide is in a class of medications called glucagon-like peptide 1 (GLP-1) agonists. GLP-1 agonists work by stimulating your pancreas to increase insulin. This additional insulin causes the stomach to empty over a longer period of time, thus sending signals to the brain of "fullness." The result is powerful appetite suppression. This means patients are not hungry and are able to stick with a healthy eating program to lose weight. Semaglutide also helps maintain blood sugar levels, which helps with energy and vitality throughout the day.

## Our Program with Semaglutide

Semaglutide is available as an easy once-a-week injection. Oral alternatives are available as well. We will begin with a low dose and gradually increase it over the course of 16-20 weeks. This is a longer program and not a quick fix. It requires a commitment for at least 3 months to see the best results.

Our programs also incorporate weekly Vitamin Injections such as B12 and MIC injections (methionine, inositol, and choline) that help with energy and weight loss. We also have an option of body contouring using our ideal light therapy.

We pride ourselves in regularly consulting, coaching, motivating, and working with the patient to make sure that you are staying the course and on track to achieve your weight loss goals. Regular monitoring keeps patients on track and allows us to intervene if dietary or lifestyle changes are affecting efficiency in your weight loss.

We also offer a wide variety of reduced-calorie meal plans that are designed to help you lose weight and keep the weight off!!!

## What is the cost of Semaglutide?

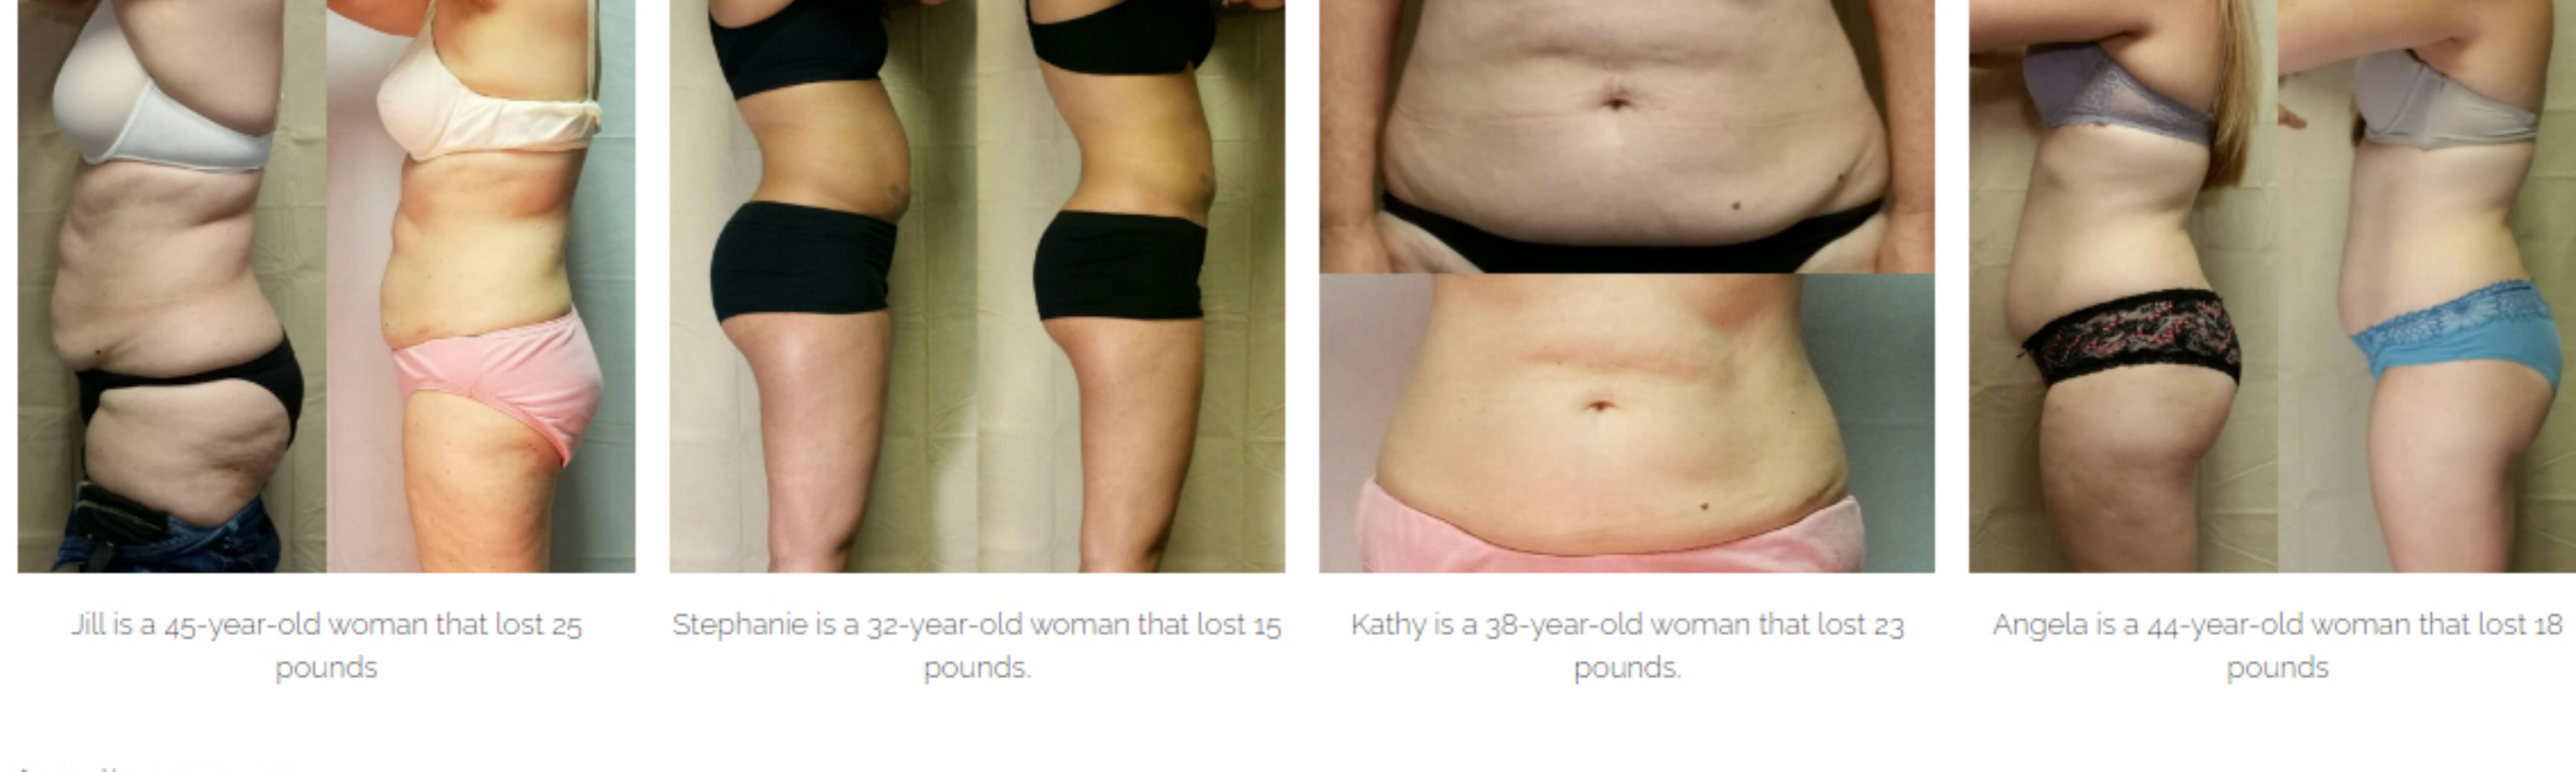

The precise cost of Semaglutide weight loss injections can vary depending on patients' goals and desired amount of weight loss. Cost typically can run from \$310 to \$500 per month, depending on weight loss goals and needs. A higher starting weight may require additional treatments and services.

Obtain a personalized estimate for Semaglutide and your weight loss goals by scheduling a consultation with us. After discussing your weight loss goals and assessing your current health, a specialist can let you know exactly how much your treatment plan will cost.

## Phentermine VS Semaglutide

Phentermine is a widely-used diet pill and appetite suppressant that is more affordable than Semaglutide but is only approved for short-term use and has lots of side effects. Semaglutide, on the other hand, is a better option for those looking at long-term weight loss solutions. Semaglutide helps with Type 2 diabetes, and it improves your glycemic index.

## Semaglutide Before and After\*

\*results may vary

## Weight loss Benefits of SEMAGLUTIDE

Semaglutide offers a plethora of benefits. These include:

- ▶ Decreased cravings and Reduced appetite
- ▶ Increased metabolism
- ▶ Increased feeling of fullness
- ▶ Alters food preference by lowering the desire for high fat and high glycemic food.
- ▶ Reduces overall body fat
- ▶ Lowers blood sugar
- ▶ Decreases triglycerides to protect the heart and decrease cardiovascular disease.
- ▶ Lowers blood pressure
- ▶ Promotes stomach health
- ▶ Improves diabetes.
- ▶ It doesn't change your mood.
- ▶ It decreases your food intake and, as a result, reduces your body's fat mass.
- ▶ It's a reliable long-term weight management option.
- ▶ It is safe to take with other supplements

## Side Effects Of Semaglutide

Using Semaglutide may cause some common side effects, including:

- ▶ Abdominal discomfort
- ▶ Constipation
- ▶ Diarrhea
- ▶ Dizziness
- ▶ Fatigue
- ▶ Headache
- ▶ Low blood sugar
- ▶ Nausea
- ▶ Vomiting

These symptoms are usually mild and improve over time without intervention. Mitigate the potential side effects by practicing the following:

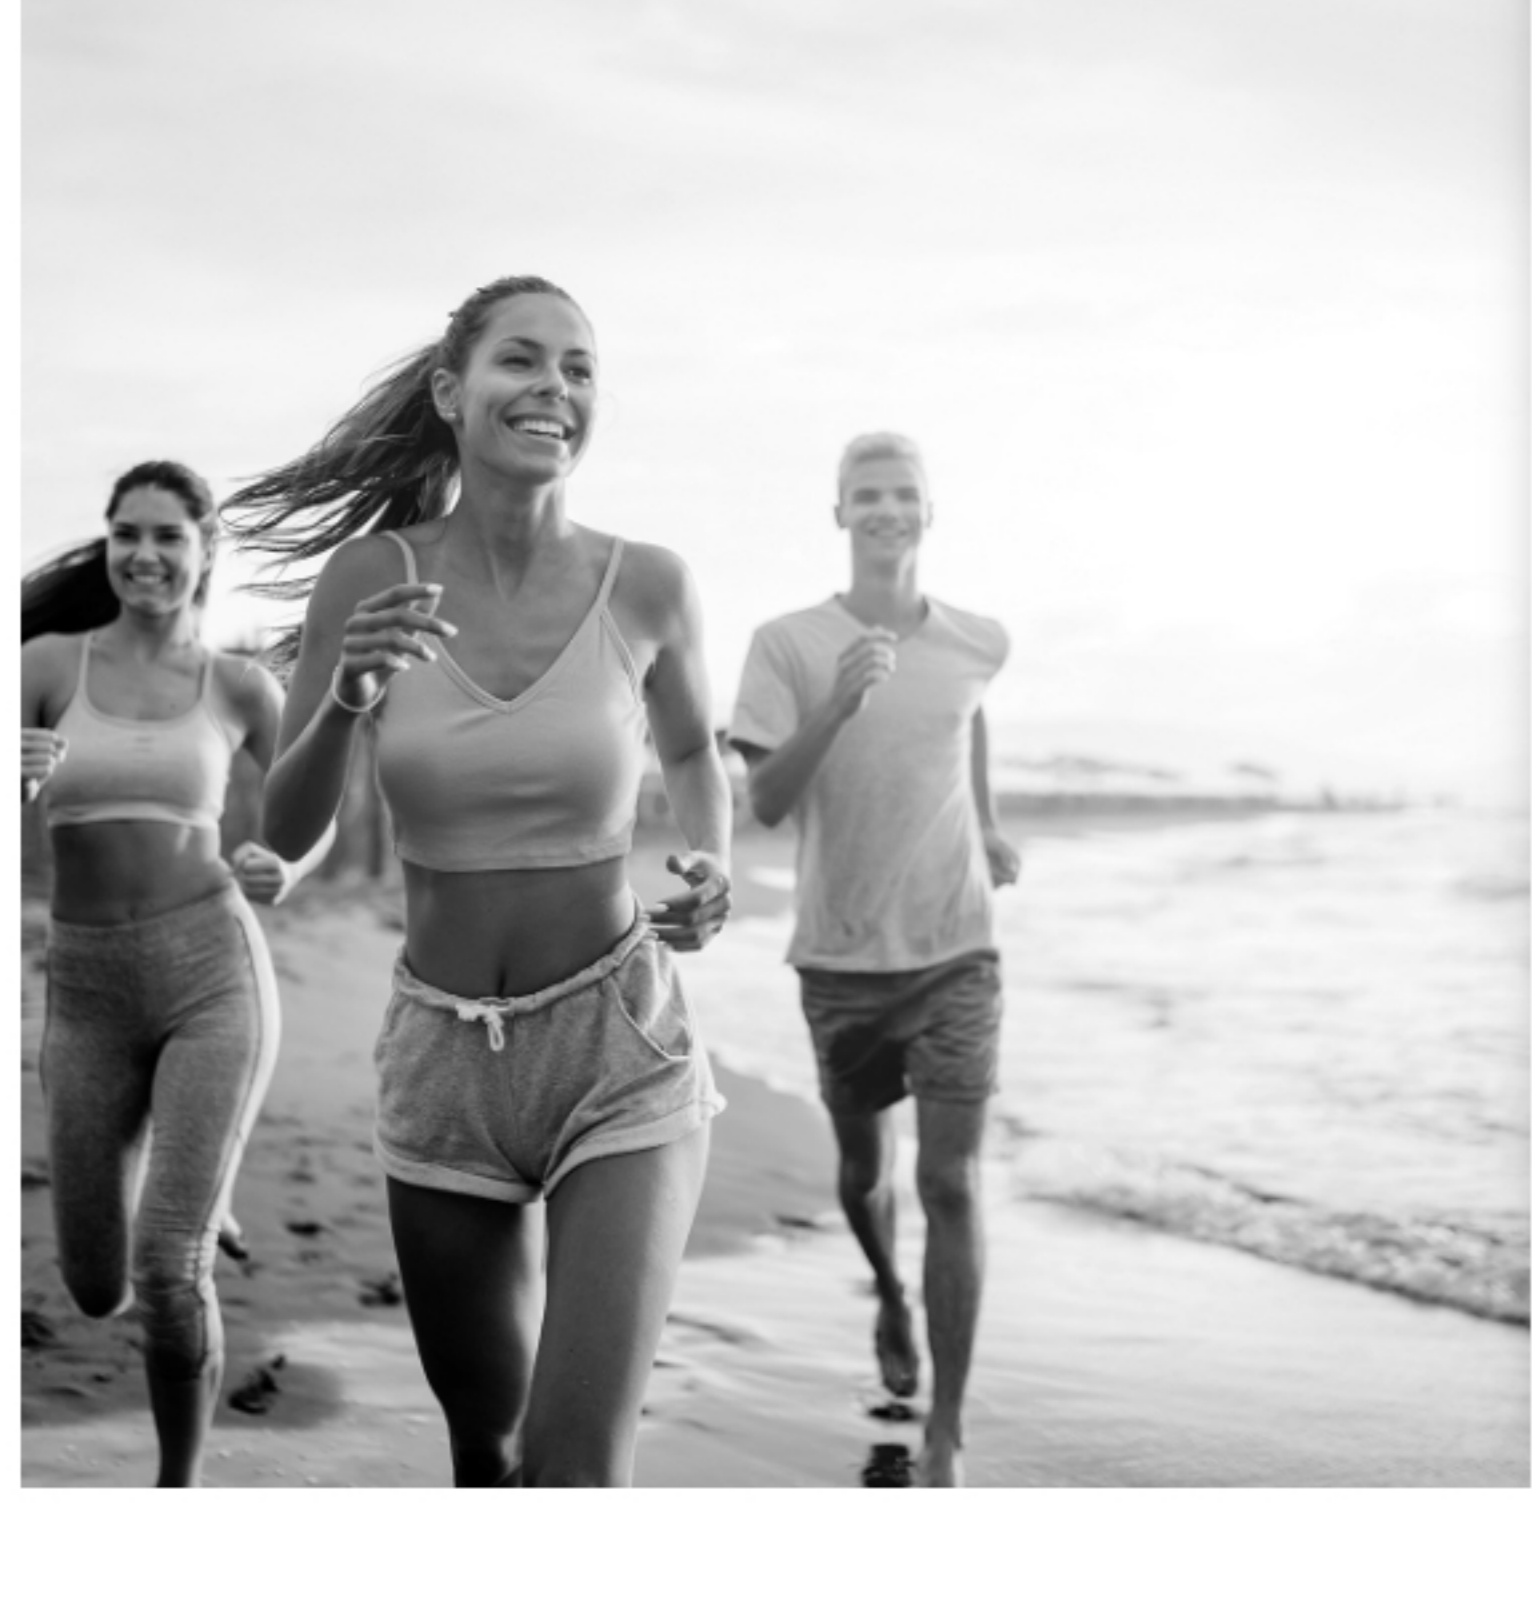

- ▶ Enjoy your meals slowly
- ▶ Drink clear or iced beverages
- ▶ Eat small, frequent meals
- ▶ Don't lie down right after eating
- ▶ Refrain from sweet, fried, and greasy foods
- ▶ Avoid late-night munchies

## Client Testimonials

**Minky B.**  
★★★★★  
"Though I was nervous about my procedure, management and staff brought a lighter image my way that made my time at Water's Edge remarkable. Nurse Judy is AMAZING! God Bless you all."

**Del G.**  
★★★★★  
"I have enjoyed my experience with Waters edge medical, they are taking a personal interest in me and helping me get through my neuropathy issue. I still have a ways to go but I'm sure and have confidence they will continue to help me."

**Randy N.**  
★★★★★  
"Great help for my neuropathy. Very compassionate and caring staff."
