SCIATIC NERVE PAIN RELIEF

Treatments containing Human Cellular Tissues and growth factors may help repair nerve damage. Injections containing Human Cellular Tissues create an environment of optimal healing for long-term, all-natural pain relief. By introducing these Wharton's jelly-derived Human Cellular Tissues and healing proteins into the areas where you require sciatica pain relief, your body can begin repairing itself without surgery.

We perform the injections at our pain management practice as an out-patient procedure. This process is relatively short, and you can usually return to your regular daily routine immediately after the treatment.

It's time to get the results you deserve!

— STRUGGLING WITH SCIATICA? ▾

Do you have sciatica in St. Petersburg? Emergency room doctors say that sciatica is one of the most common things they encounter each year in St. Petersburg. Millions of people in America will suffer with the pain of sciatica, and many never achieve a long term solution. Their problem continues to worsen because they have not received the correct treatment. This article from Water's Edge Medical Clinic will help you to understand the ins and outs of this condition and what you can do to overcome it.

Many people wonder what sciatica feels like? Patients often describe the pain of sciatica as a slight discomfort to the most extreme unbearable pain. Sciatic pain can show up in different areas of the leg and foot, and many times the pain will come and go. Over years of time people tend to go through periods of pain that typically intensify as the problem goes unchecked.
